PREPARED BY RAZER

RAZER BLADE 15" (2018) EC UPDATER V1.02

Model Numbers affected.

Please only use this updater if your model is listed below.

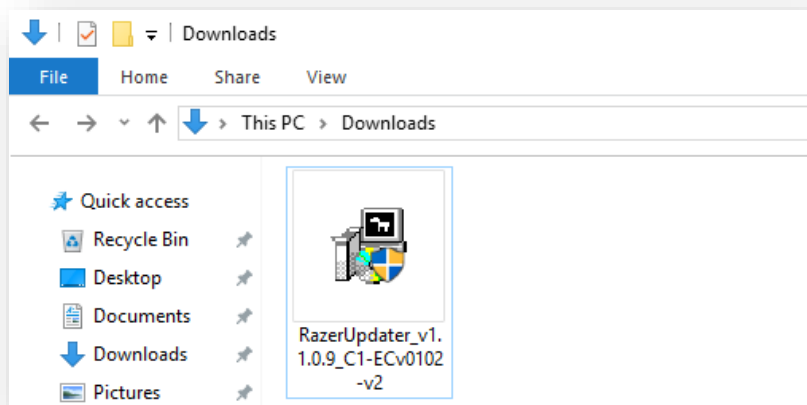

RZ09-02385	Razer Blade 15" (2018)
RZ09-02386	Razer Blade 15" (2018)

RELEASE NOTES:

Fixes issue where the Razer Blade 15" (2018) would not charge when powered off

STEP-BY-STEP PROCESS

1. Download the RazerUpdater_v1.1.0.9_C1-ECv0102-v2.exe single-click updater found at https://dl.razer.com/drivers/BladeC1/RazerUpdater_v1.1.0.9_C1-ECv0102-v2.exe
2. Run the downloaded file to initiate the install process.

3. The Razer Updater will appear and indicate if you are able to update.

NOTE: If the "Update" button is greyed out, your system is already running the latest version and no longer requires this update.

4. Please ensure that you have saved all necessary progress and data to avoid any loss of important information during the update.
5. Left-click "Update" to start the update process. (NOTE: You may lose keyboard and mouse functionality during the update process)
6. The updater will show a progress bar and the updater may take several minutes to complete the entire update.
7. Wait for the update process to complete.
8. Your computer will restart once the update is complete.
9. End
