## APPLICABLE MODEL NUMBERS

RZ09-0301          Razer Blade 15" (Mid 2019) – Advanced Model

## RELEASE NOTES

Addresses light leak when 'Fn' (function) key is pressed on some 15-inch Blade Advanced (Mid 2019) units

# BEFORE YOU START THE INSTALLATION PROCESS

1. Please ensure you have installed all the latest Microsoft@ Windows Operating Systems and Security Updates. For help verifying your OS is up to date, please refer to the following article from Microsoft.

   https://support.microsoft.com/en-us/help/4027667/windows-update-windows-10
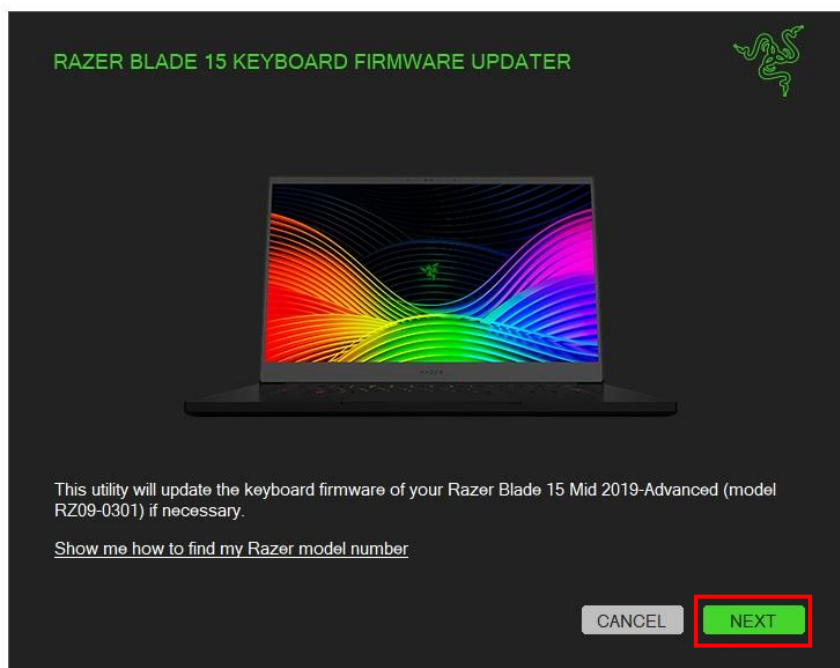

2. Ensure that your Blade is plugged into a wall outlet and not running on battery alone before proceeding.

3. Save any open documents on your computer and close all other programs before attempting this update.

4. Please proceed with downloading the update from the link below.

   http://rzr.to/KkxlH

5. Once you have extracted the file proceed to the installation steps below.
# INSTALLATION PROCESS

1. Click on the updater file located in your chosen download location to begin the update process.

2. The User Account Control window may pop up to confirm changes that will be made by the application. Click 'Yes' to allow the Firmware Updater application to launch.

3. Follow the on-screen instructions on how to update your firmware. Click "NEXT".

4. Please close all applications under Razer Central before proceeding. Right click on the Razer icon in the system tray and select "Exit All Apps". Then, click "NEXT".

5. Click "UPDATE" to initiate the update process of your Razer Blade laptop.

6. A progress bar will appear indicating the status and progression of the installation process. During the install process, you will not have access to other applications. Please wait on the system to complete the updating process.

7. This completes the installation process.
