

# FIRMWARE INSTALLATION INSTRUCTIONS

RAZER VIPER MINI FIRMWARE UPDATER GUIDE

---

## UPDATER INFORMATION

### APPLICABLE MODEL NUMBERS

- RZ01-02550

### DRIVER NAME AND VERSION

Viper Mini\_Mouse\_FirmwareUpdater\_v1.02.00\_r3

Download the firmware updater here: <http://rZR.to/fJwV6>

### RELEASE NOTES:

- Minimized mouse cursor jitter.
- Fixed an issue where the LED flashes white for a split second after waking up from sleep, unlocking the PC, coming back from a restart, and the like.
- Added a 28ms wait period after first click to avoid accidental clicks.

---

## PREPARATIONS

1. Make your laptop is plugged into a wall outlet and not just running on battery before proceeding.
2. Save any open documents on your computer and close all other programs before attempting the update.
3. Download the firmware from the link above.

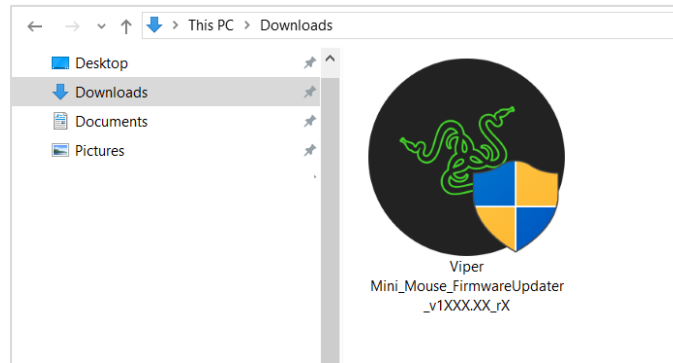

**Note:** It is recommended to download and install the latest firmware version.

4. Once the file is ready, follow the installation steps below.

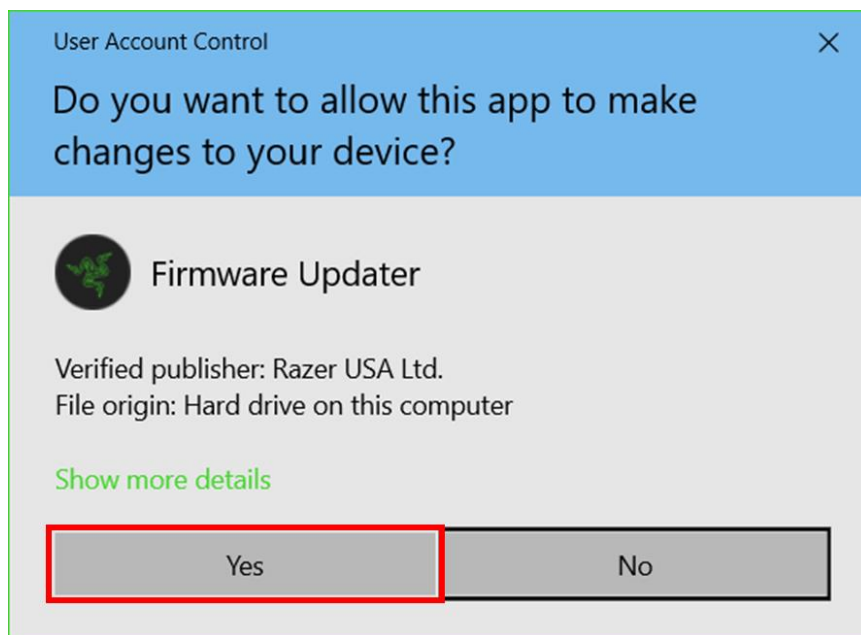

---

## INSTALLATION PROCESS

1. Run the updater.

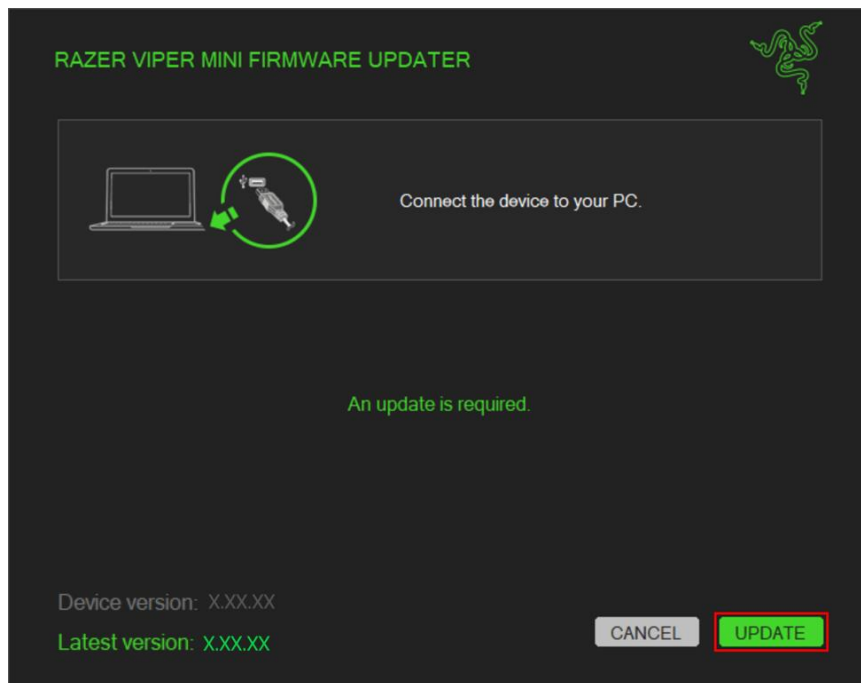

2. You may be prompted to confirm changes on your device by the User Account Control. Click "Yes" to confirm these changes.

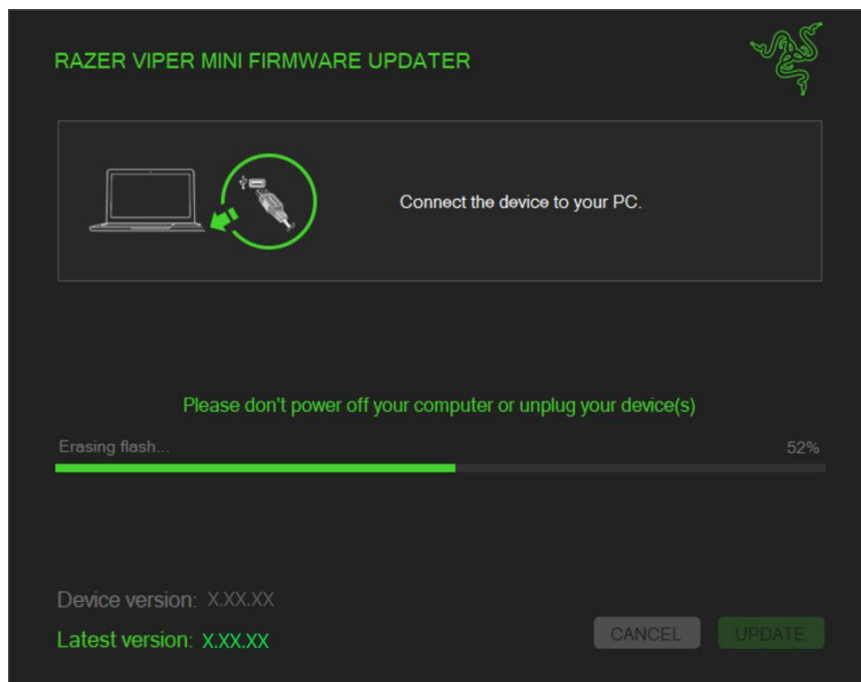

3. Click "NEXT" to proceed. The installer will close all running Razer applications if you have not done so.

4. Connect the device to the computer and then click "UPDATE".

5. Wait until the update process is complete. Do not interrupt.

6. When the update is complete, click "CLOSE".
