

RAZER AXON

MASTER GUIDE

Design your gaming space your way with digital wallpapers for your PC desktop. Each high quality enhanced wallpaper is enabled with Razer Chroma RGB lighting effects that sync up with your Razer devices and with **Razer Axon**. Every month choose from a broad selection of new static or dynamic wallpapers, available in many sizes including ultrawide monitor sizes. Choose your favorite wallpaper and display it on one monitor or extend it to cover up to 3 monitors.

1. WHAT'S NEEDED

- Windows® 10 64-bit (or higher)
- Internet connection for software installation and online features
- Razer Synapse 3 with Chroma Connect module*
- Windows Media Player

**Chroma Connect module is required to sync Razer Chroma devices with Razer Chroma-supported wallpapers.*

2. SETUP

INSTALLATION (FOR FIRST-TIME USERS)

Razer Axon is a software package that can be downloaded and installed on your PC.

1. [Download and install](#) the latest version of Razer Axon.
2. Click **Done** once the installation completes and restart when prompted.

UPDATING THE SOFTWARE (FOR EXISTING USERS)

Make sure you're using the latest version of Razer Axon. From the Razer Axon Settings ⚙, go to **ABOUT > CHECK FOR UPDATES**, click the **CHECK FOR UPDATES** link and **INSTALL** if an update is available for Razer Axon.

UNINSTALLATION

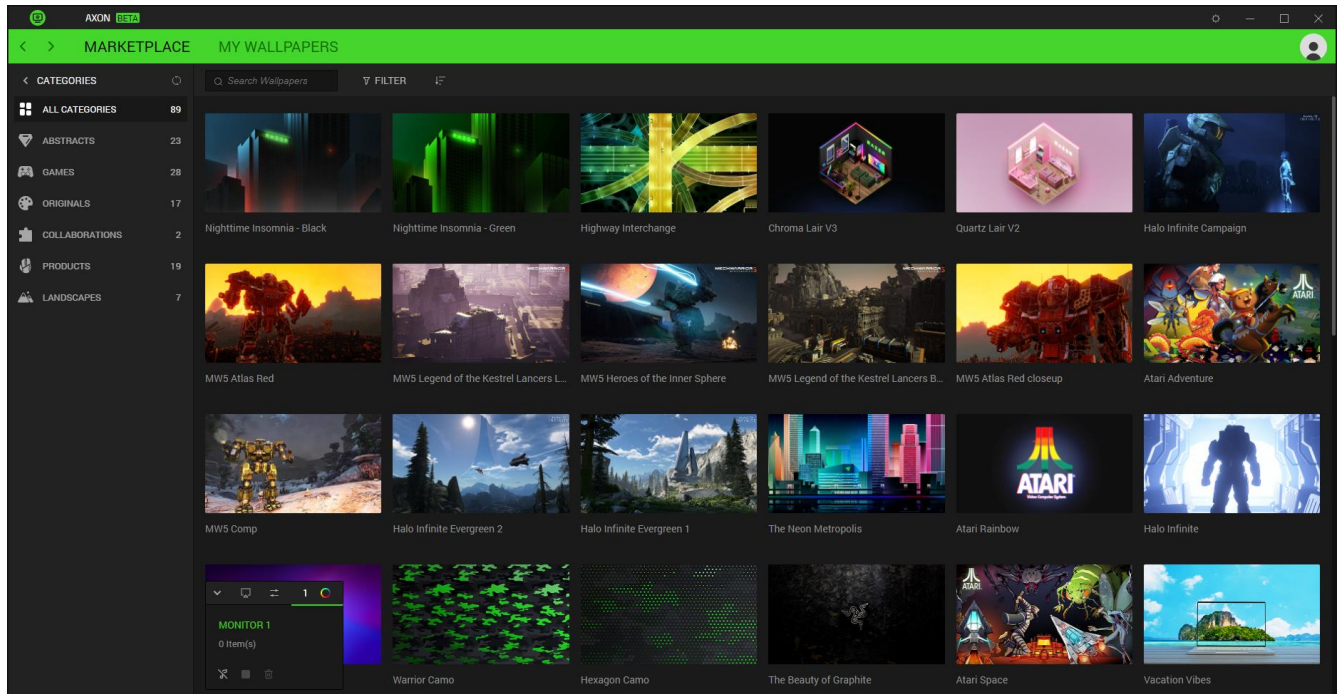

If you want to uninstall Razer Axon completely:

1. On your PC, open the **Control Panel**, then go to **Programs and Features**.
2. Right-click Razer Axon, then select **Uninstall**.
3. Follow the onscreen instructions to complete the uninstallation.

3. GENERAL SETTINGS

THE USER INTERFACE

By default, the **AXON** tab is displayed when you launch Razer Axon, allowing you to access the various functions Razer Axon offers.

Navigation

Use the (<) or (>) buttons to navigate between Marketplace and My Wallpapers sub-tabs.

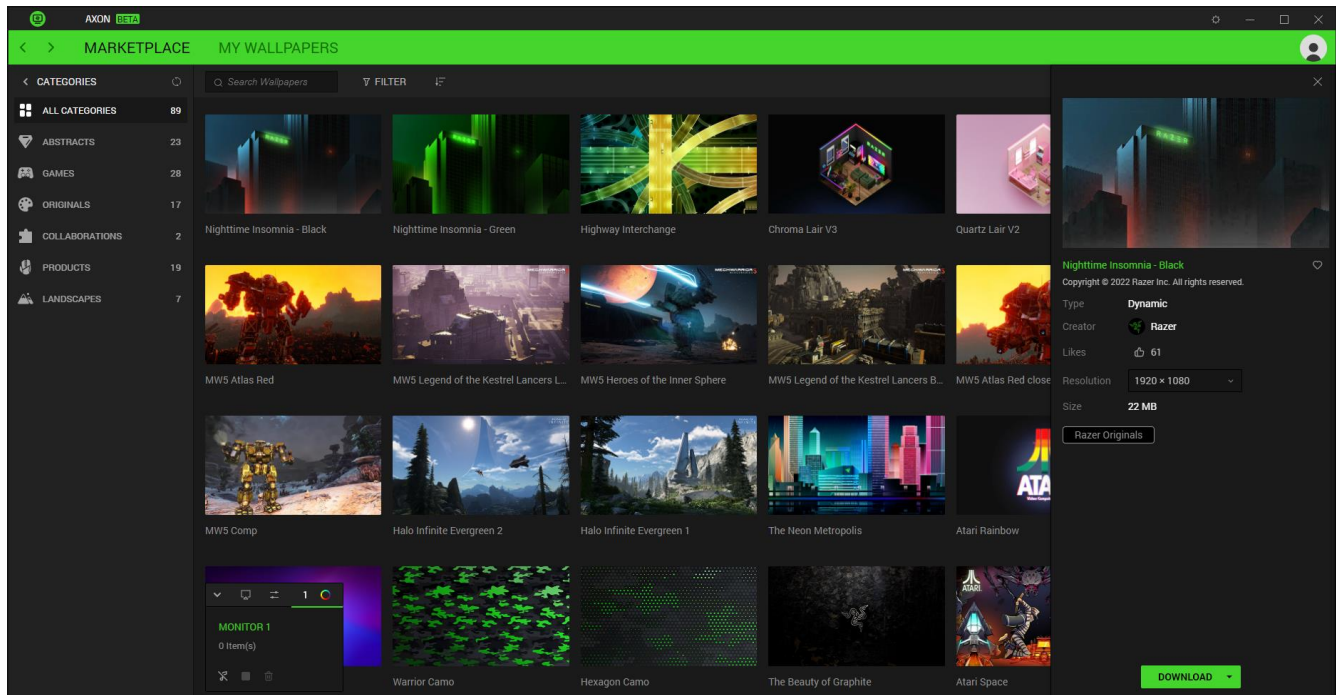

Avatar

Clicking on your avatar will allow you to check your Razer Gold and Silver balance or redemption history, redeem exclusive wallpapers using redemption codes, or access Razer ID account-oriented features. Alternatively, you may access the feedback page or exit Razer Axon from the dropdown list.

 *Some features may require you to log in with your Razer ID. [Learn more about the Guest account](#)*

Wallpapers

Clicking on any wallpaper will show attributes such as wallpaper type, creator, likes and tag(s). You may also change the wallpaper's current resolution, reset a wallpaper's properties, and download (or apply) a wallpaper.

Type

Indicates whether the selected wallpaper is dynamic (animated) or static (still image).

Like

Shows the selected wallpaper's current like count. Click the Like button (👍) to like the selected wallpaper. Liking wallpapers allows Razer Axon users to sort wallpapers according to 'Most liked'.

Add to Favorites

Add or remove the wallpaper to your favorites list by clicking the Add to Favorites button (♡). Once added, you'll be able to see all favorited wallpapers using the 'Favorites only' filter option.

Resolution

Displays allows you to change (for downloadable multi-resolution wallpapers) the quality of the selected wallpaper; downloaded wallpapers need to be deleted and redownloaded with the preferred quality. [Learn more about deleting wallpapers](#)

Size

Displays how much space a wallpaper will occupy in your system and depends on the resolution selected before download.

Silver

Indicates the current Razer Silver price to redeem select wallpapers.

Download / Apply

Download or apply the selected wallpaper on the active monitor. Downloaded wallpapers are marked with the  icon. Applied wallpapers are automatically added to the current monitor's Playlist. [Learn more about the Playlist](#)

You can download and apply the selected wallpaper to the current monitor by clicking on the arrow beside the Download button.

Properties

For downloaded wallpapers, you can mute/unmute an audio-enabled wallpaper or enable/disable its Razer Chroma RGB effect on any active monitor.

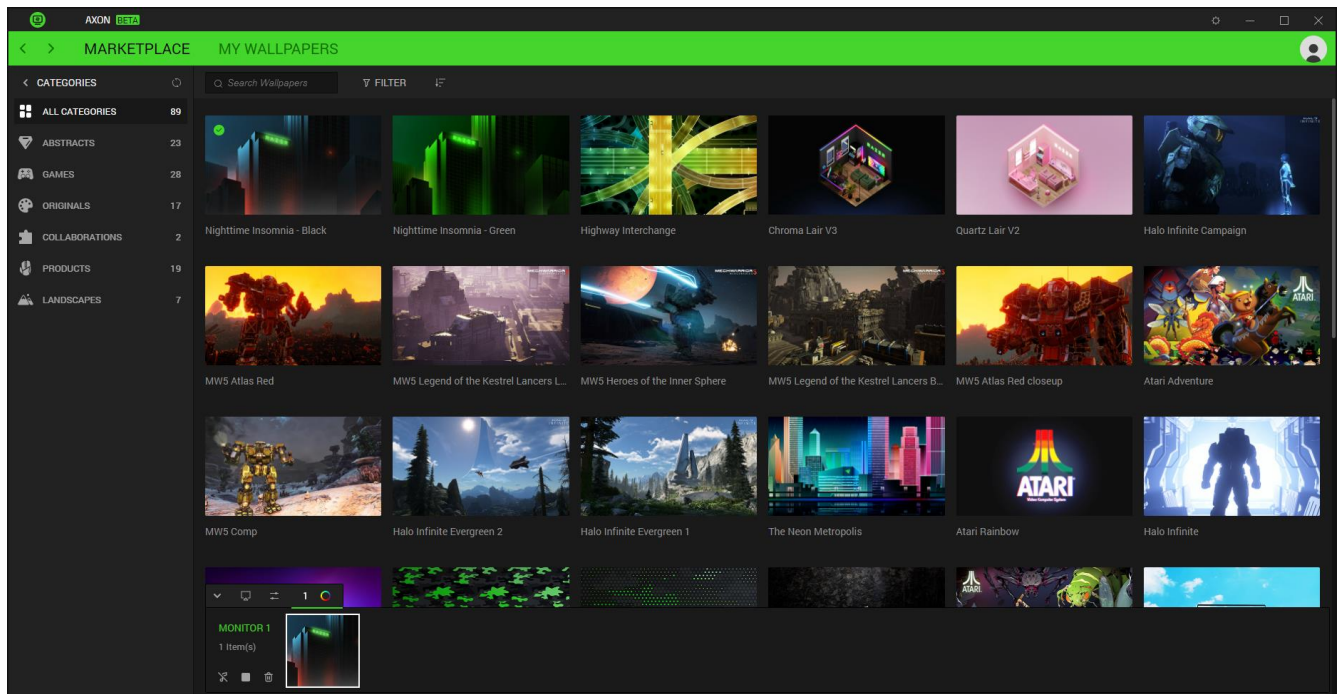

Other wallpaper controls

Other wallpaper controls can be accessed when you right-click on any downloaded wallpaper:

- **Apply.** Apply the selected wallpaper to specific monitors.
- **Add to / Remove from Favorites.** Add or remove a wallpaper to your Favorites list.
- **Open file location.** Show the folder where the selected wallpaper is located.
- **Delete.** Delete the downloaded wallpaper from local storage.

PLAYLIST

Found at the bottom of any page, the Playlist allows you to manage the playback of all applied wallpapers and toggle Chroma effects on or off any monitor.

Applying any wallpaper on any monitor adds the wallpaper to the current monitor's playlist queue.

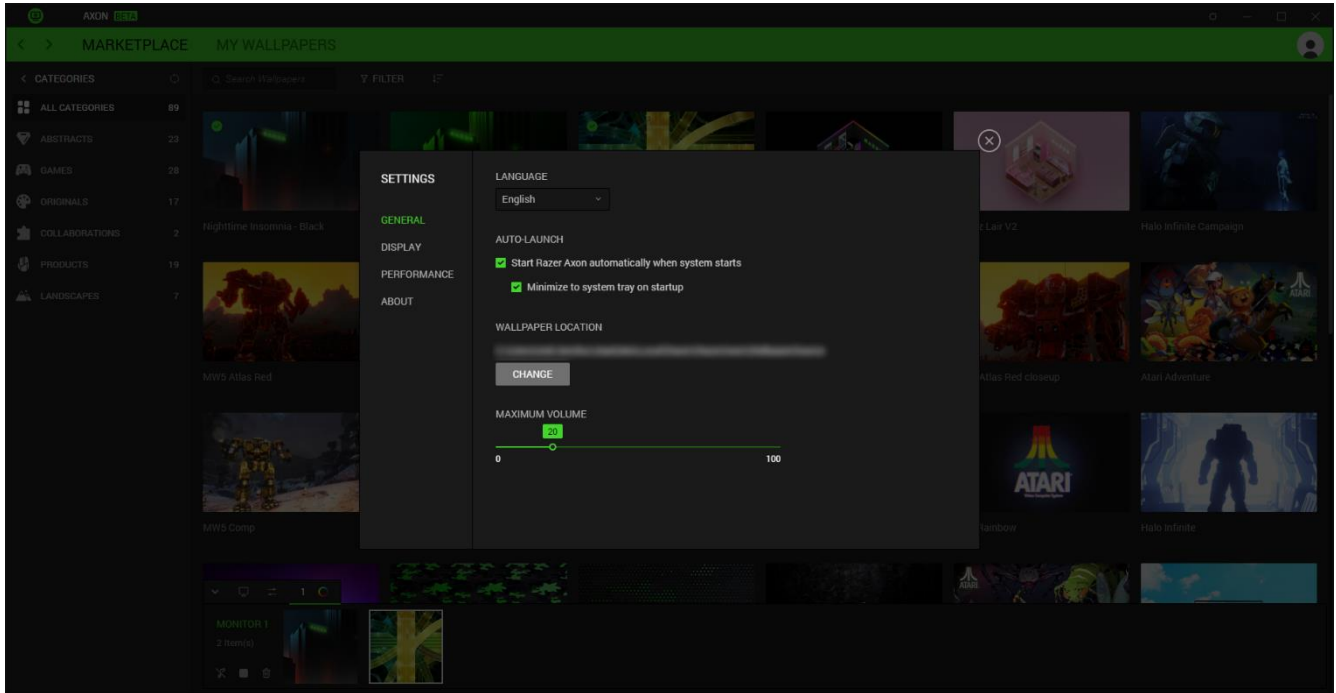

- **Show (^) / Hide (v).** Expand or collapse the Playlist.
- **Display settings (🖥).** Open **Settings > Display window**, where you can set your main monitor and how wallpapers will be displayed on multiple monitors, or use the main monitor's wallpaper as your system's screen saver.
- **Playback settings (⏮).** Set how long each wallpaper in the Playlist will be displayed on a monitor and in what order wallpapers will display on each monitor.
- **Enable / Disable Chroma (🌈).** Enable or disable all Chroma effects on all wallpapers in the Playlist.
- **Mute (🎵) / Unmute (🚫).** Mute or unmute all audio-enabled wallpapers in the playlist.

- **Play (►) / Stop (■).** Enable or disable the current playlist on the selected monitor.
- **Remove wallpaper (✕).** Upon hovering on any wallpaper in the playlist, clicking the remove wallpaper (✕) button will remove it from the list.
- **Remove all items.** Remove all wallpapers from the selected monitor's playlist.

SETTINGS

The Settings window, accessible by clicking the Settings button (⚙️), enables you to configure the software's language and startup behavior, global wallpaper settings such as wallpaper volume and display behavior when using multiple monitors, and software performance modes.

From here, you'll be able to access the following tabs:

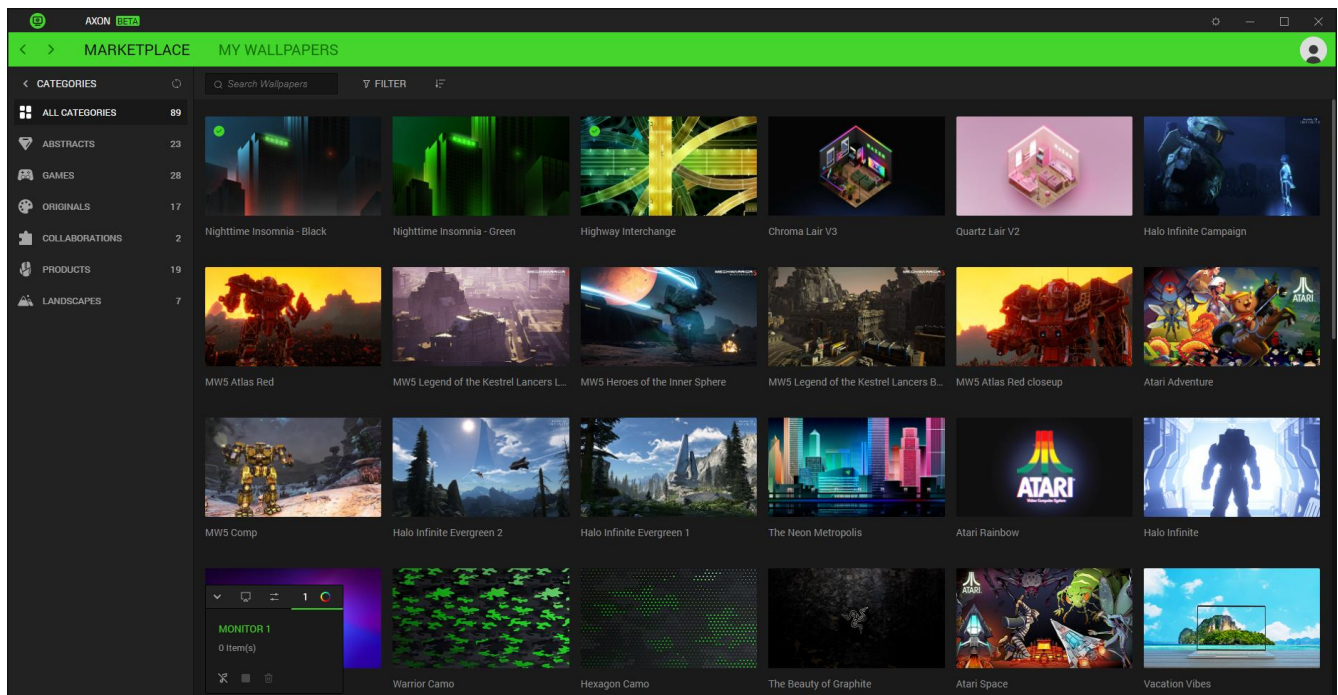

- **General.** Change the software's language, startup behavior and default wallpaper directory, and adjust the maximum wallpaper volume for audio-supported wallpapers.
- **Display.** Customize how the software will display wallpaper(s) on multiple monitors, set the main monitor (for multiple-monitor users), and set the software to use the main monitor's wallpaper as your system's screen saver.
- **Performance.** Set how the software adjusts its performance when running games or applications.
- **About.** View the software's information and copyright statement, including links to its license terms, software notice, terms of service, and privacy policy. You may also use this tab to check for updates, view the software's user guide, or quickly access Razer's social communities.

4. MARKETPLACE

Bring your desktop to life with high quality enhanced wallpapers. The Marketplace sub-tab shows all the available wallpapers for download.

SIDEBAR

Use the sidebar to view all the available wallpaper categories on Razer Axon. You can collapse or expand the sidebar by clicking on the Expand (>) and Collapse buttons (<) and refreshing the wallpaper list using the Refresh button (↻).

SEARCH WALLPAPERS

Enter the name or keyword you want to search for in the Marketplace

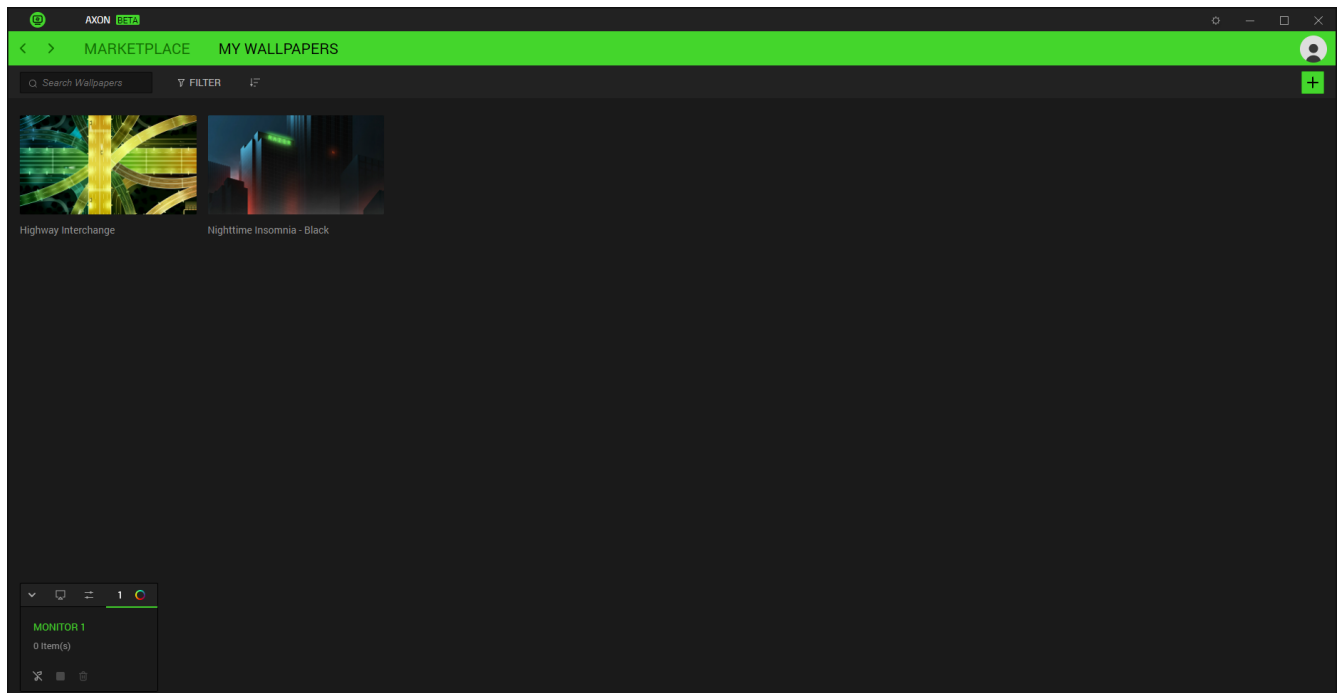

FILTER AND SORT

Toggle on Filter (▾ FILTER) to filter wallpapers or search results according to Favorites only, Redeemed, or Type and Resolution. To remove all applied filters, click on the Clear button.

Wallpapers or search results can be sorted according to most liked, most recent, and most downloaded using the Sort (≡) button.

5. MY WALLPAPERS

Access all downloaded wallpapers or customize your wallpapers using videos or web resources.

FILTER AND SORT

Toggle on Filter ( FILTER) to filter wallpapers or search results according to Type and Source. To remove all applied filters, click on the Clear button.

Wallpapers or search results can be sorted according to name or date added using the Sort () button.

CREATE A WALLPAPER

Click the Create a wallpaper button in the upper right hand corner () to Customize a wallpaper using videos on your system's local storage, a local path, or web URL. You can assign a wallpaper title, set its author, and upload your preferred cover art on any created wallpaper.
