1. RAZER CENTRAL

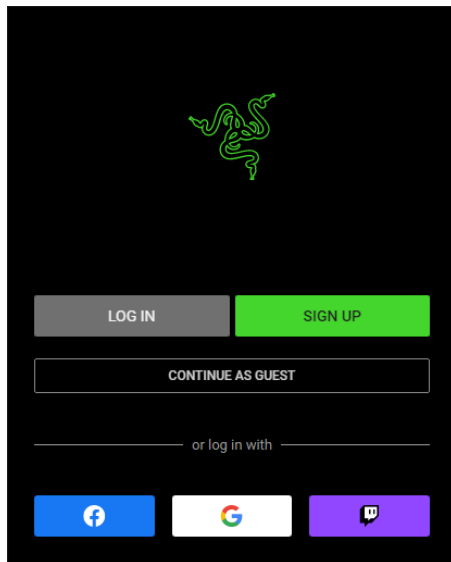

Razer Central allows you to use a single Razer ID across all Razer applications. You can now update your Razer ID profile and account settings, quickly access and update various Razer applications in one click, and stay updated with the latest Razer promotions and software updates available.

Razer Central is automatically installed/launched whenever installing or launching any of the following Razer applications:

- **Razer Axon.** Bring your desktop to life with high-quality enhanced wallpapers. [Learn more about Razer Axon](#)
- **Razer Cortex.** The one solution for all your PC gaming needs brings enhanced gaming performance, system performance, and the ability to discover the best gaming deals on a single platform. [Learn more about Razer Cortex](#)
- **Razer Synapse.** The unified hardware configuration tool that's designed to take your Razer device to the next level. [Learn more about Razer Synapse](#)

Razer Central can also exit any or all Razer applications through its system tray function, which provides quick access to some of the functions each Razer application offers.

2. USING A GUEST ACCOUNT

For those who like to keep things simple, you may now use Razer Axon, Razer Cortex, and Razer Synapse without creating a Razer ID account, logging in, and/or an internet connection.

Upon launching any Razer software, click **CONTINUE AS GUEST** on the Razer LOGIN page to proceed using a Guest account.

i *An internet connection is still required for software updates, Razer Axon wallpapers, Razer Cortex Deals, and Razer Synapse modules. Registering for a Razer ID account is recommended to access full features but is not required.*

3. SIGNING UP FOR A RAZER ID

A screenshot of the 'CREATE RAZER ID ACCOUNT' form. The title is 'CREATE RAZER ID ACCOUNT' and the subtitle is 'Razer ID is a unified account for all Razer services.' The form contains several input fields: 'RAZER ID (YOUR GAMER NAME)', 'LOCATION' (a dropdown menu currently showing 'SINGAPORE'), 'Birthday (DD/MM/YYYY)' (with a question mark icon), 'EMAIL ADDRESS', and 'PASSWORD' (with an eye icon). Below the form is a section titled 'Sign up for Razer emails' with five checkboxes and their corresponding information icons: 'Razer.com', 'Razer Gold & Silver' (with a sub-note 'Earn 200 Razer Silver when you subscribe!'), 'Razer Cortex and Razer Game Deals', 'New Razer Product and Services Information', and 'RazerStore Retail: Singapore'.

If you haven't registered for a Razer ID yet, you can also use the Razer LOGIN page to sign up for a Razer ID account.

1. On the Razer LOGIN page, click **SIGN UP**.
2. Follow the onscreen instructions and accept the Razer ID's Terms and Conditions.
3. Check your email for a verification link from Razer, and click **VERIFY** to confirm your registration. Your Razer ID account will automatically be logged in upon confirmation.

4. LOGGING IN

If you already have a Razer ID, you can log in directly by doing the following:

1. Launch Razer Axon, Razer Cortex or Razer Synapse to open the Razer LOGIN page.
2. Enter your Razer ID's email address and password, and click **LOG IN**.

i *If you want your Razer ID automatically logged in each time you launch any Razer software on your PC, select **Keep me logged in**.*

5. RETRIEVING A FORGOTTEN PASSWORD

Razer Support'. Below the paragraphs is an input field labeled 'RAZER ID EMAIL OR RECOVERY EMAIL'. At the bottom are two buttons: 'BACK' (grey) and 'SUBMIT' (green)." data-bbox="97 504 371 758"/>

If you've forgotten your Razer ID password, you can retrieve it by doing the following:

1. On the Razer LOGIN page, click **Forgot Password?**
2. Enter your Razer ID or recovery email on the field provided, and click **SUBMIT**.
3. Check your email for a password reset link from Razer, and click **RESET YOUR PASSWORD** to reset your password.
4. On the PASSWORD RESET page, enter your new password in the field provided and click **RESET** to confirm.
5. You can now log into your Razer ID account on your Razer software.

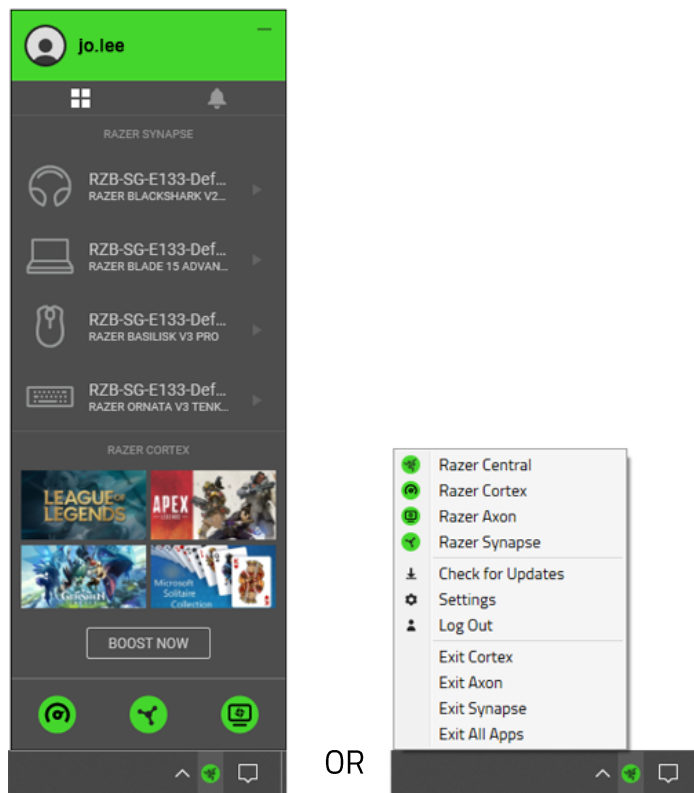

6. USING RAZER CENTRAL

SYSTEM TRAY ICON

The Razer Central icon () in the system tray enables you to access Razer Central's expanded system tray, the Razer Central window, or other secondary functions.

To access these functions, you can either do any of the following:

- **Left-click on the Razer Central icon.** Open the expanded system tray function. [Learn more about the Expanded system tray](#)
- **Right-click on the Razer Central icon.** Access the Razer Central window or its Settings, check for updates, log out, or exit any or all open Razer applications;

Right-click action

THE EXPANDED SYSTEM TRAY

The expanded system tray lets you access useful features from each installed Razer application. Left-click the Razer Central icon () to show the expanded system tray.

Click on your Razer ID or avatar to open the Razer Central window. You may also switch the displays of the expanded system tray using the Apps icon () or the Notifications icon ().

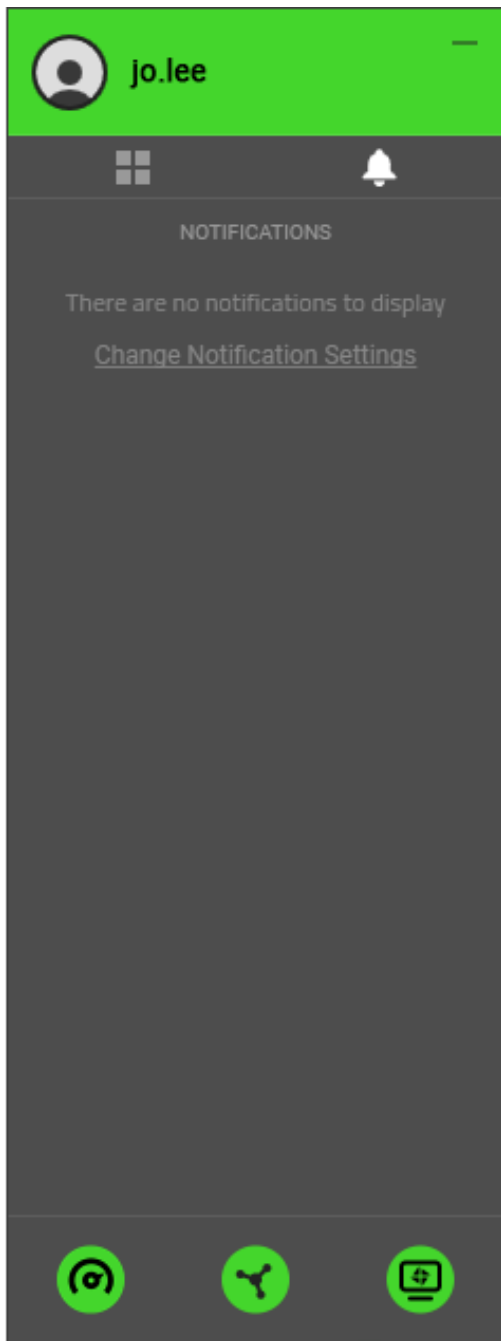

With Razer Synapse installed and running, use the expanded system tray to easily switch between available profiles set on each connected Razer Synapse-supported device.

 *All Razer Synapse-supported devices in the expanded system tray will only be accessible when Razer Synapse is running.*

With Razer Cortex installed and running, the expanded system tray enables you to access Razer Cortex's recently played games with the BOOST NOW function.

 *The expanded system tray's BOOST NOW / RESTORE function will only be accessible when Razer Cortex is running.*

You may also use the Razer Axon (), Razer Cortex () or Razer Synapse () icons to launch the corresponding application.

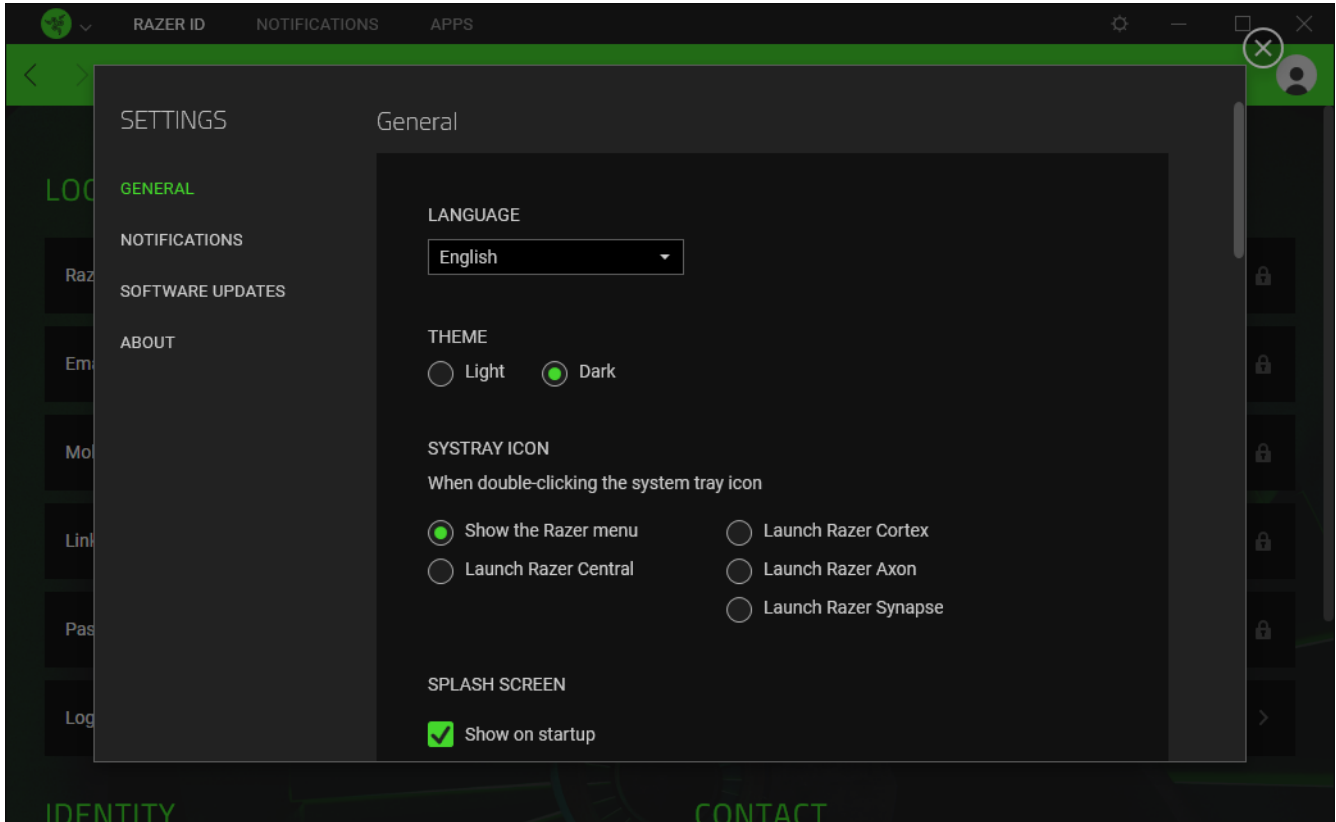

The NOTIFICATIONS tab, accessible by clicking the Notifications icon (🔔) in the expanded system tray, displays the notifications selected on Razer Central's settings.

i You can change Razer Central's notifications settings under *SETTINGS > NOTIFICATIONS*.

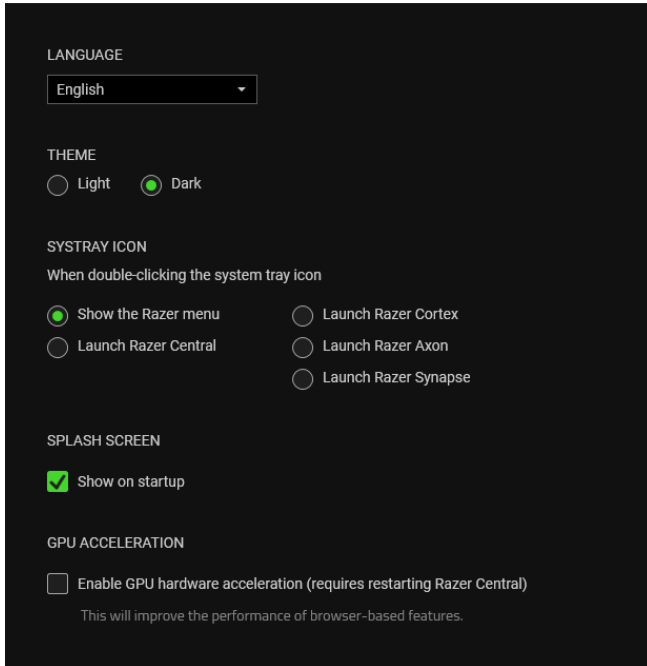

SETTINGS

Razer Central has its settings accessible through the Settings button (⚙️). These settings will help you manage Razer Central's behavior and notifications. You may scroll through the available settings or use the provided tabs to jump to specific settings.

General

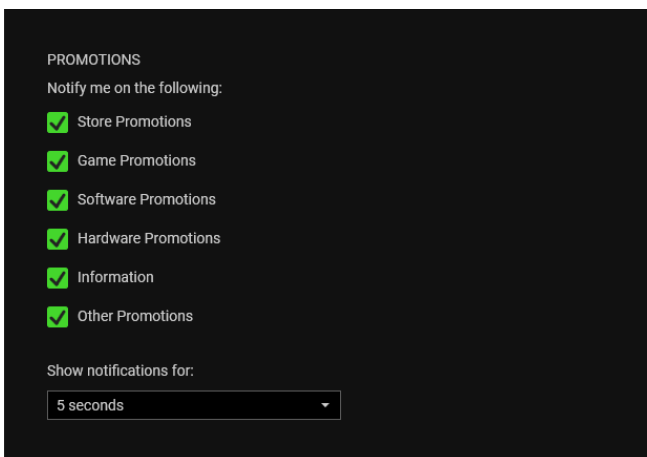

Use the **GENERAL** tab to change Razer Central's language display, switch color themes, determine what the system tray icon () will launch when double-clicked, show the splash screen on startup, and use hardware acceleration to improve browser-based features. These settings will be applied across all Razer software.

 *Razer Axon, Razer Central, Razer Cortex, and Razer Synapse each have their own **SETTINGS** page.*

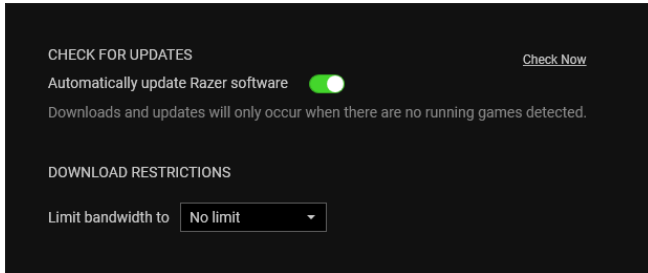

Notifications

Use the **NOTIFICATIONS** tab to control the promotions on Razer Central's NOTIFICATIONS tab, its expanded system tray, and the duration of all onscreen notifications.

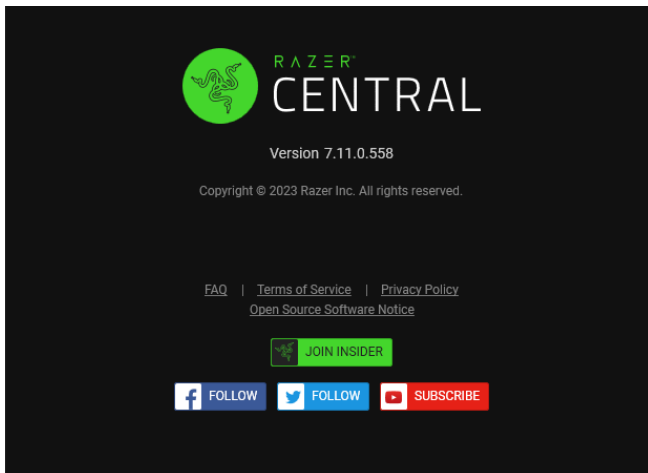

Software Updates

Use the **SOFTWARE UPDATES** tab to change Razer Central's behavior when checking for updates and/or set a bandwidth limit when downloading updates. You can have these updates automatically downloaded or set as notifications.

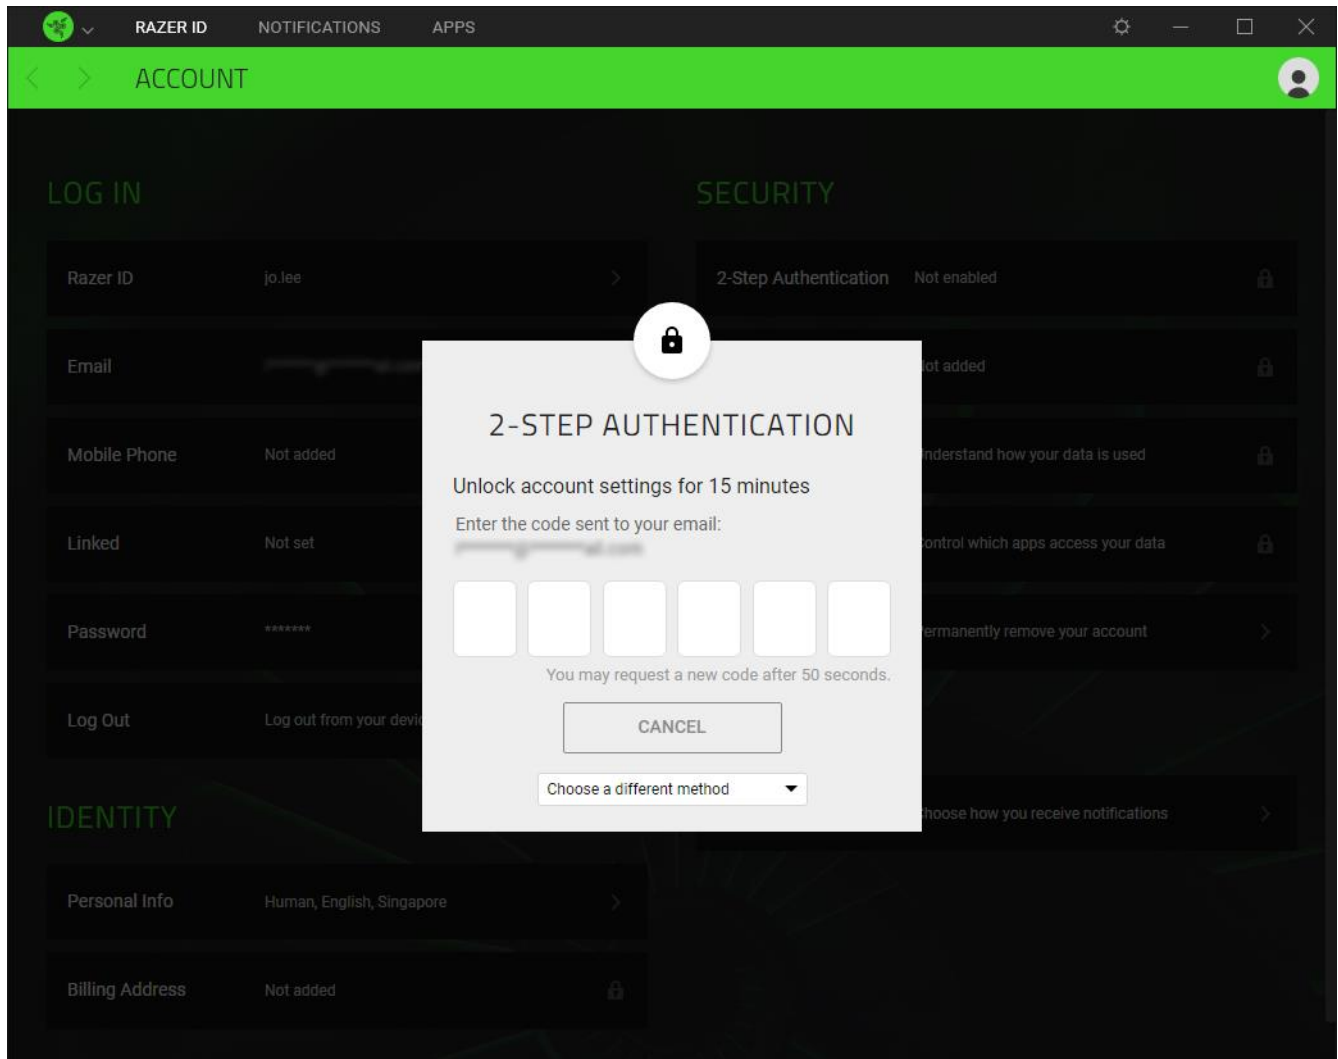

About

Use the **ABOUT** tab to view the Razer Central's version and access its Terms of Service, Privacy Policy, and software notice. You may also use this tab to access Razer's various social communities quickly.

2-STEP AUTHENTICATION

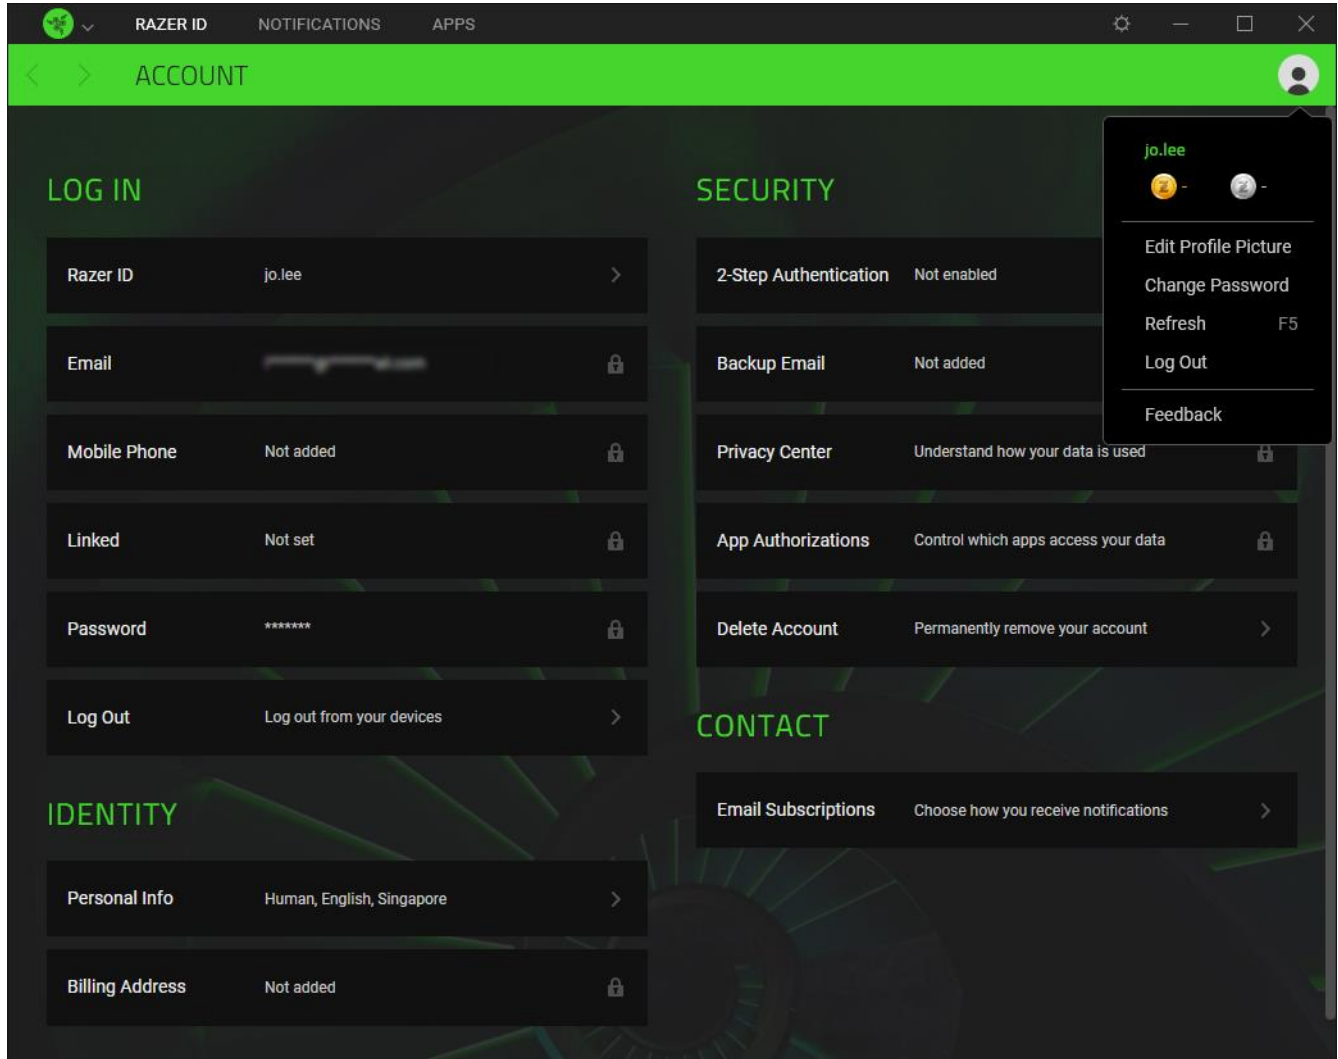

As a security feature, all vital details necessary for your account are automatically locked even after logging in and/or when the Razer Central window is idle. By default, Razer Central will require you to enter a verification code sent to your email whenever clicking on any locked item (🔒) on your account page to unlock your account settings for 3 minutes.

i Razer Central uses email verification as its default 2-step authentication method. You may use different authentication methods only if you've registered a mobile number and/or linked an authenticator app to your Razer ID. [Learn more about 2-Step Authentication](#)

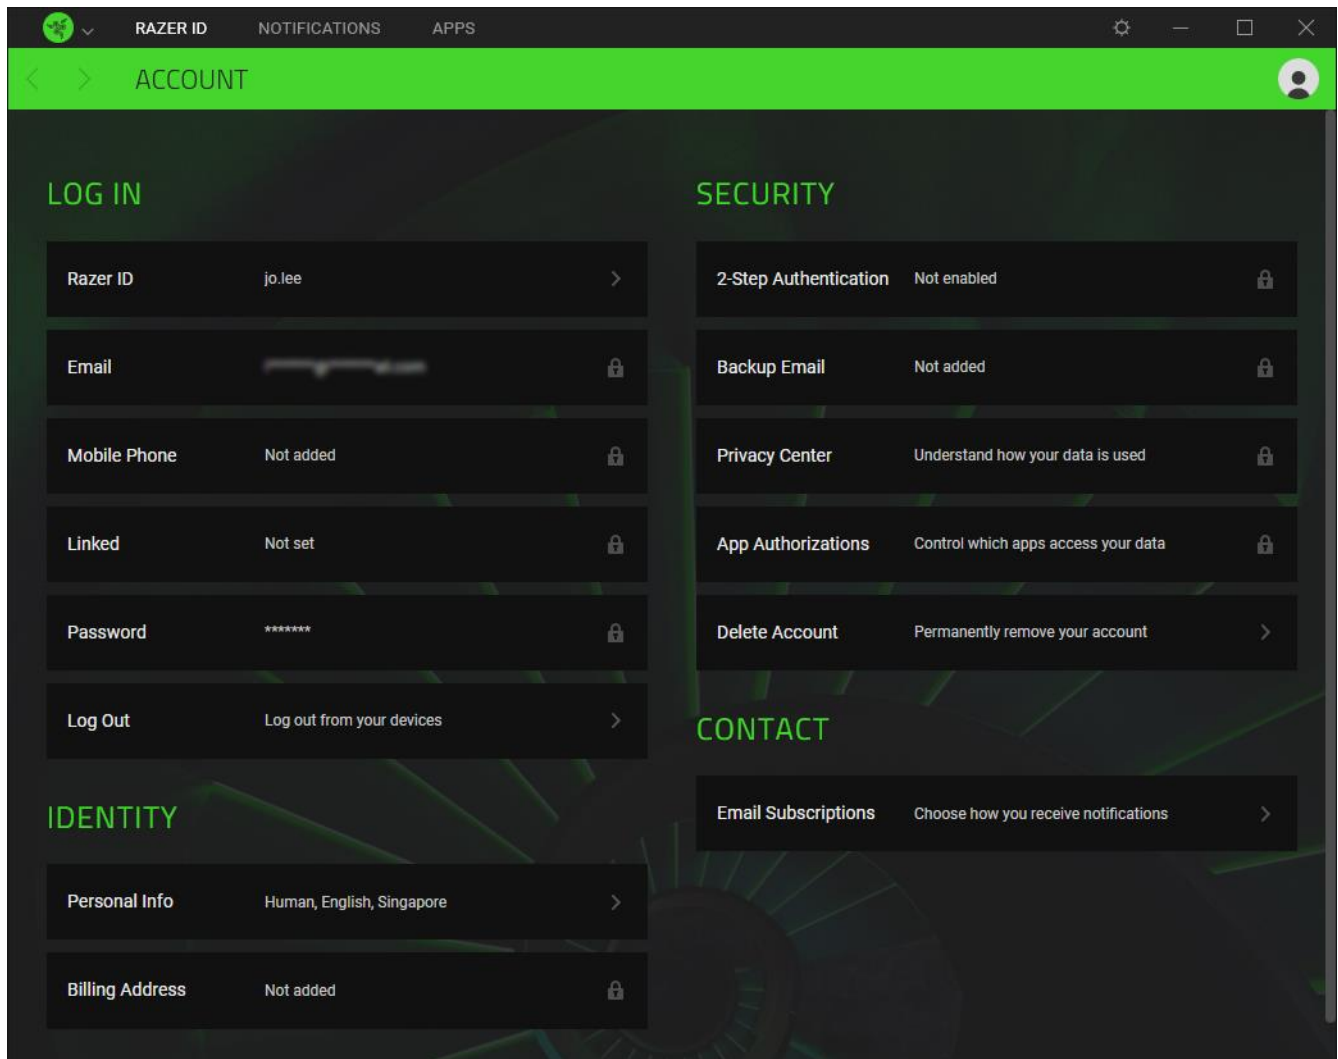

AVATAR FUNCTIONS

From viewing the balance and accessing your Razer Gold wallet, changing your display photo and password, refreshing a page, and providing software feedback to logging out – use the drop-down menu of the avatar icon to access important account functions immediately.

YOUR RAZER ID

The ACCOUNT sub-tab is Razer Central's default window. This tab allows you to manage your contact details and your account's login and security settings.

i To refresh the page, use the Refresh option on your avatar's drop-down list; or press F5.

From here, you'll be able to do the following:

- **Razer ID.** Change your unique Razer ID.
- **Email.** Change the primary email address connected to your account.
- **Mobile Phone.** Set up or change the mobile number used as your Razer ID's 2-step authentication method.
- **Linked.** Link social accounts so you can use them when logging into any Razer service.

- **Password.** Create a new password for your Razer ID. You may also access this setting from your avatar.
- **Log Out.** Log out from your current device and/or other authenticated devices.
- **Personal Info.** Change your first and last names, gender, birth date, language, and location. These details are never publicly shared.

 *Backup codes are automatically generated upon verifying your mobile number. These codes will allow you to log in if your phone is not accessible. We recommend keeping these codes somewhere safe and accessible.*

- **Billing Address.** Modify your billing address details which will be used as a fraud prevention measure for Razer Silver redemptions.
- **Backup Email.** Assign a new backup email address for your account. You'll find this useful if you have problems logging in.

 *The new backup email address must be verified to be valid.*

- **2-Step Authentication.** Add an extra layer of security to your account. By default, this is set to use your email address. Adding your mobile number and/or linking an authenticator app will automatically disable email address authentication.

 *Backup codes are automatically generated upon verifying your mobile number.*

- **Privacy Center.** Understand why and how Razer collects and uses your personal data on its services. Some Razer Services allow you to export or delete your data to see how much personal data each service stores and provide control if you don't prefer any of these details collected.

Upon exporting and/or deleting data, your primary email address will receive the following:

- a. the exported data from the selected Razer service within seven (7) days; or
- b. a confirmation that the Razer service you requested for clearing has been completed.

- **App Authorizations.** See and manage all third-party applications you've logged into with your Razer ID account.
- **Delete Account.** Permanently delete your Razer ID. Your profile, account information, all settings, and data related to your account, will be removed and become non-retrievable.

 *It usually takes 24 hours before the account becomes permanently deleted. Deleted accounts are NON-RETRIEVABLE. All account information and data connected to your profile will be deleted permanently.*

- **Email Subscriptions.** Control which types of marketing messages you wish to receive. You may also change these messages' language and region settings as preferred.

 *Default region settings will be used if a selected language is not supported, while English will be used if the selected region is not supported.*

NOTIFICATIONS

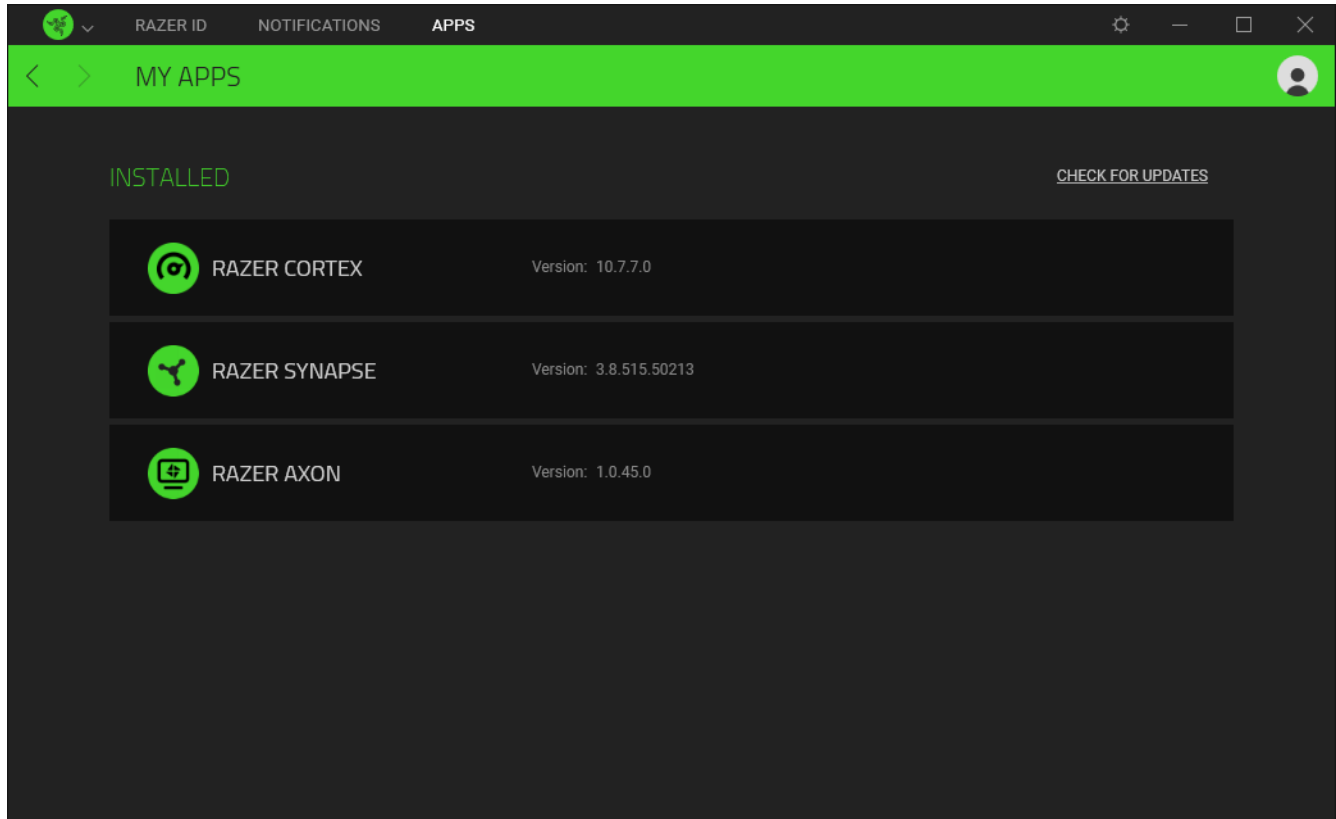

The NOTIFICATIONS tab lets you see all the requested promotions in one window. From the latest store promotions to the hottest hardware promotions – as long as these are set to notify you on Razer Central's Settings (⚙) > NOTIFICATIONS, you'll continue receiving the hottest and latest notifications on this page.

The screenshot shows the Razer Central interface with the NOTIFICATIONS tab selected. The notification is titled 'VERIFY YOUR zVAULT ACCOUNT' and features a large 'Z' logo. It lists three benefits: receiving monthly Razer zGold & zSilver account summaries, securing transactions, and being first to find out about latest exclusives. A 'SCORE 2000 zSILVER*' badge is visible in the top right corner of the notification. The notification also includes a 'zGold PAY SECURELY' and 'zSilver EARN REWARDS' logo, and the URL 'zVAULT.RAZERZONE.COM'. A 'DELETE ALL' button is located at the bottom left of the notification area.

i To refresh the displayed notifications, you may either use the Refresh option in your avatar's drop-down list or press F5.

APPS

Razer Central will automatically notify you if any of your Razer applications can be updated. You may manually check for updates by clicking the **CHECK FOR UPDATES** link. Simply click the **UPDATE** button of the corresponding app to begin installing its available update.

1. WHAT'S NEEDED

- Windows® 10 64-bit (or higher)
- Internet connection for software installation and online features

2. SETUP

INSTALLATION (FOR FIRST-TIME USERS)

Razer Cortex is a software package that can be downloaded and installed on your PC.

1. [Download and install](#) the latest version of Razer Cortex.
2. Click **Done** once the installation completes and restart when prompted.

UPDATING THE SOFTWARE (FOR EXISTING USERS)

Make sure you're using the latest version of Razer Cortex. From the Razer Cortex Settings ⚙️, go to **ABOUT > CHECK FOR UPDATES**, click the **CHECK FOR UPDATES** link and **INSTALL** if an update is available for Razer Cortex.

UNINSTALLATION

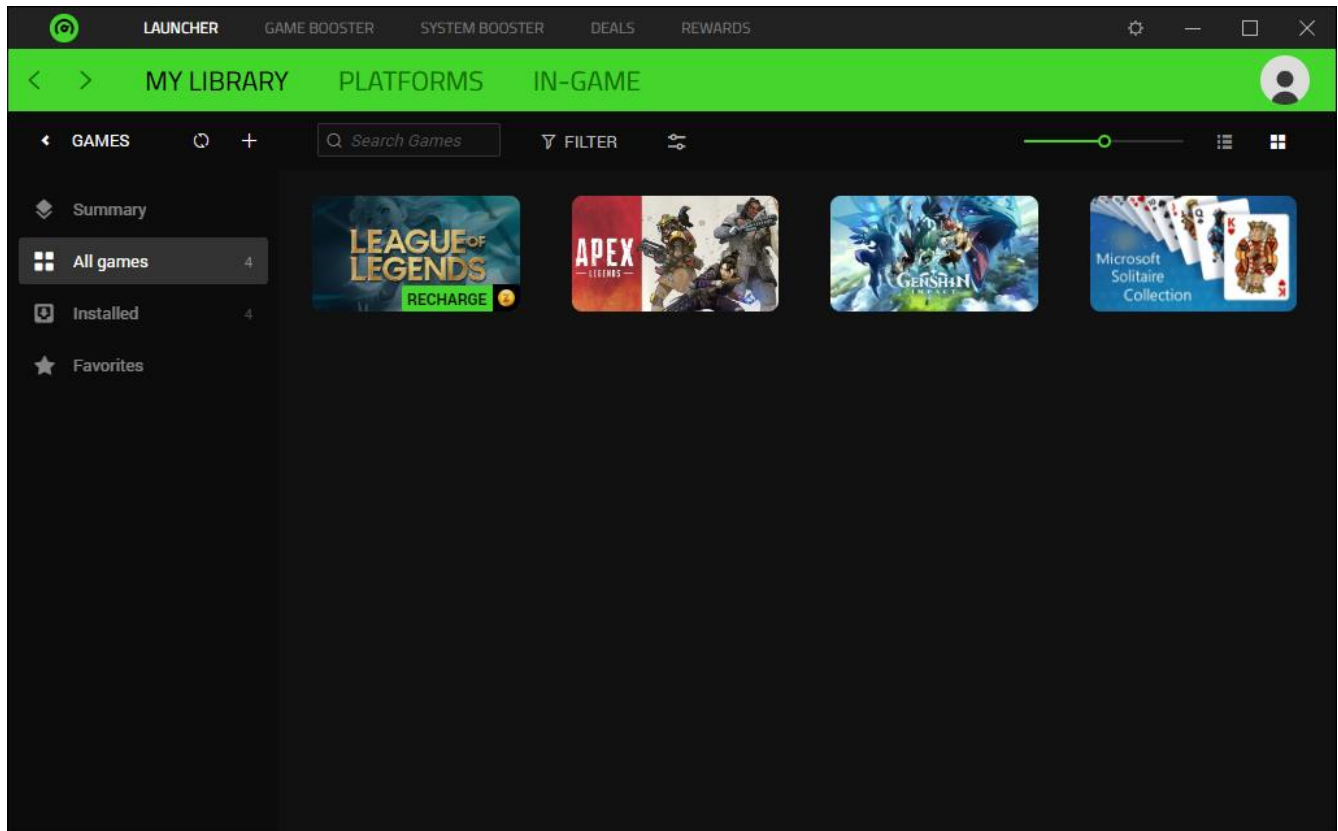

If you want to uninstall Razer Cortex completely:

1. Open the Control Panel on your PC, then go to **Programs and Features**.
2. Right-click Razer Cortex, then select **Uninstall**.
3. Follow the onscreen instructions to complete the uninstallation.

3. GENERAL SETTINGS

THE USER INTERFACE

Razer Cortex displays the **LAUNCHER > MY LIBRARY** subtab when launched. Use the tabs and each tab's corresponding subtab(s) to access the functions Razer Cortex offers.

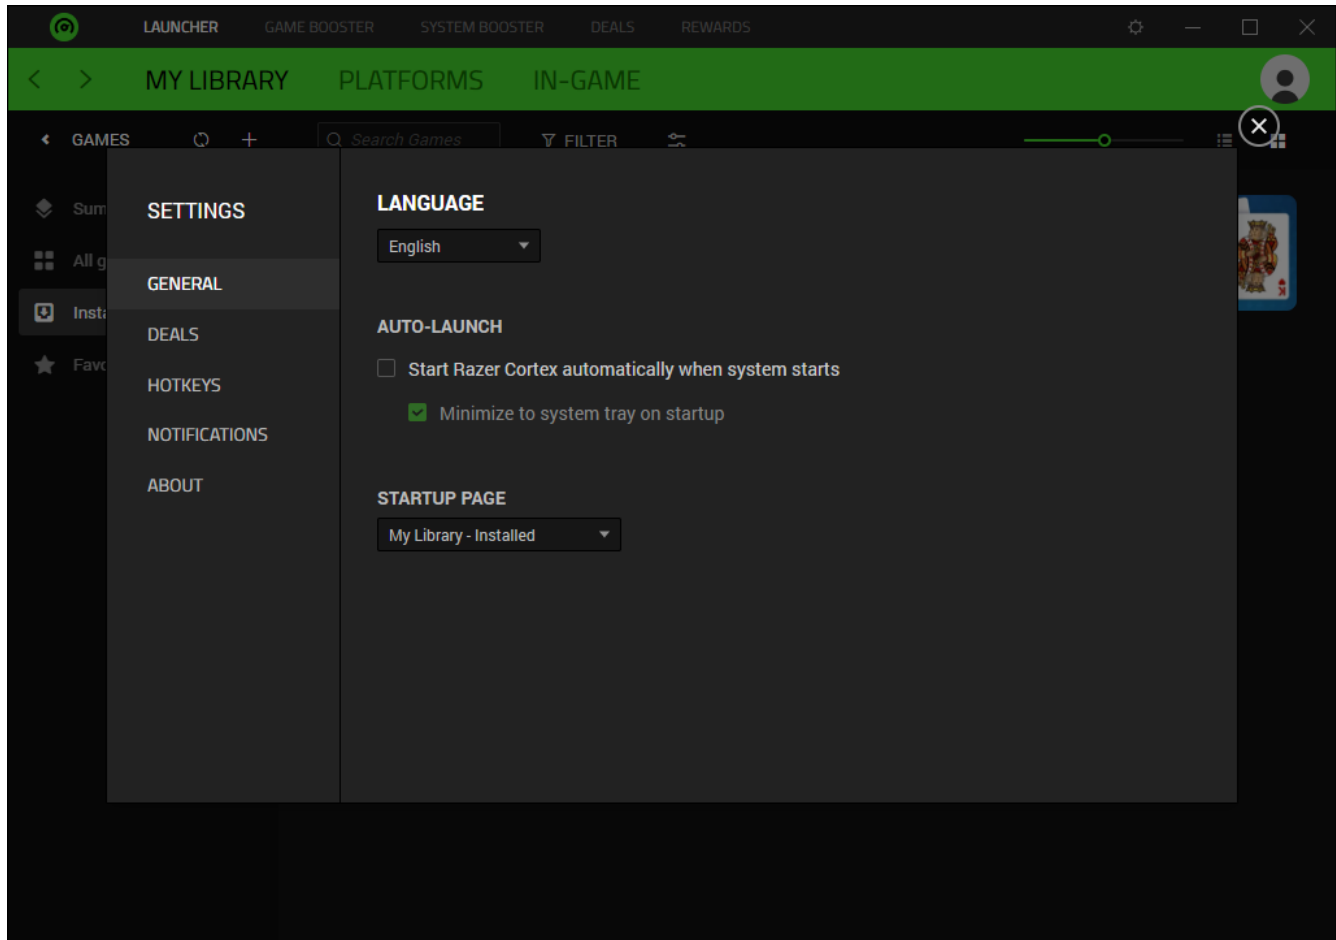

Use the (<) or (>) buttons to navigate between visited pages. Clicking on your avatar will allow you to check your Razer Gold and Silver balance or access Razer ID account-oriented features. Alternatively, you may access the feedback page or exit Razer Cortex from the dropdown list.

i Some features may require you to log in with your Razer ID. [Learn more about the Guest account](#)

SETTINGS

The Settings window, accessible by clicking the Settings button (⚙️), enables you to configure the software language and startup behavior, manage Wishlist and Razer-Silver-related notifications, and customize the hotkeys of Razer Cortex's Game Booster feature.

From here, you'll be able to access the following tabs:

- **General.** Change the software's language and startup behavior or change its default startup page.
- **Deals.** Determine which notifications you want and how often you wish to receive them or disable notifications entirely. [Learn more about Deals](#)
- **Hotkeys.** Set preferred keyboard shortcuts for most of Game Booster's functions. [Learn more about Game Booster](#)
- **Notifications.** Set which Razer Silver-related alerts will notify you.
- **About.** View the software's information and copyright statement, including links to its license terms, software notice, terms of service, and privacy policy. You may also use this

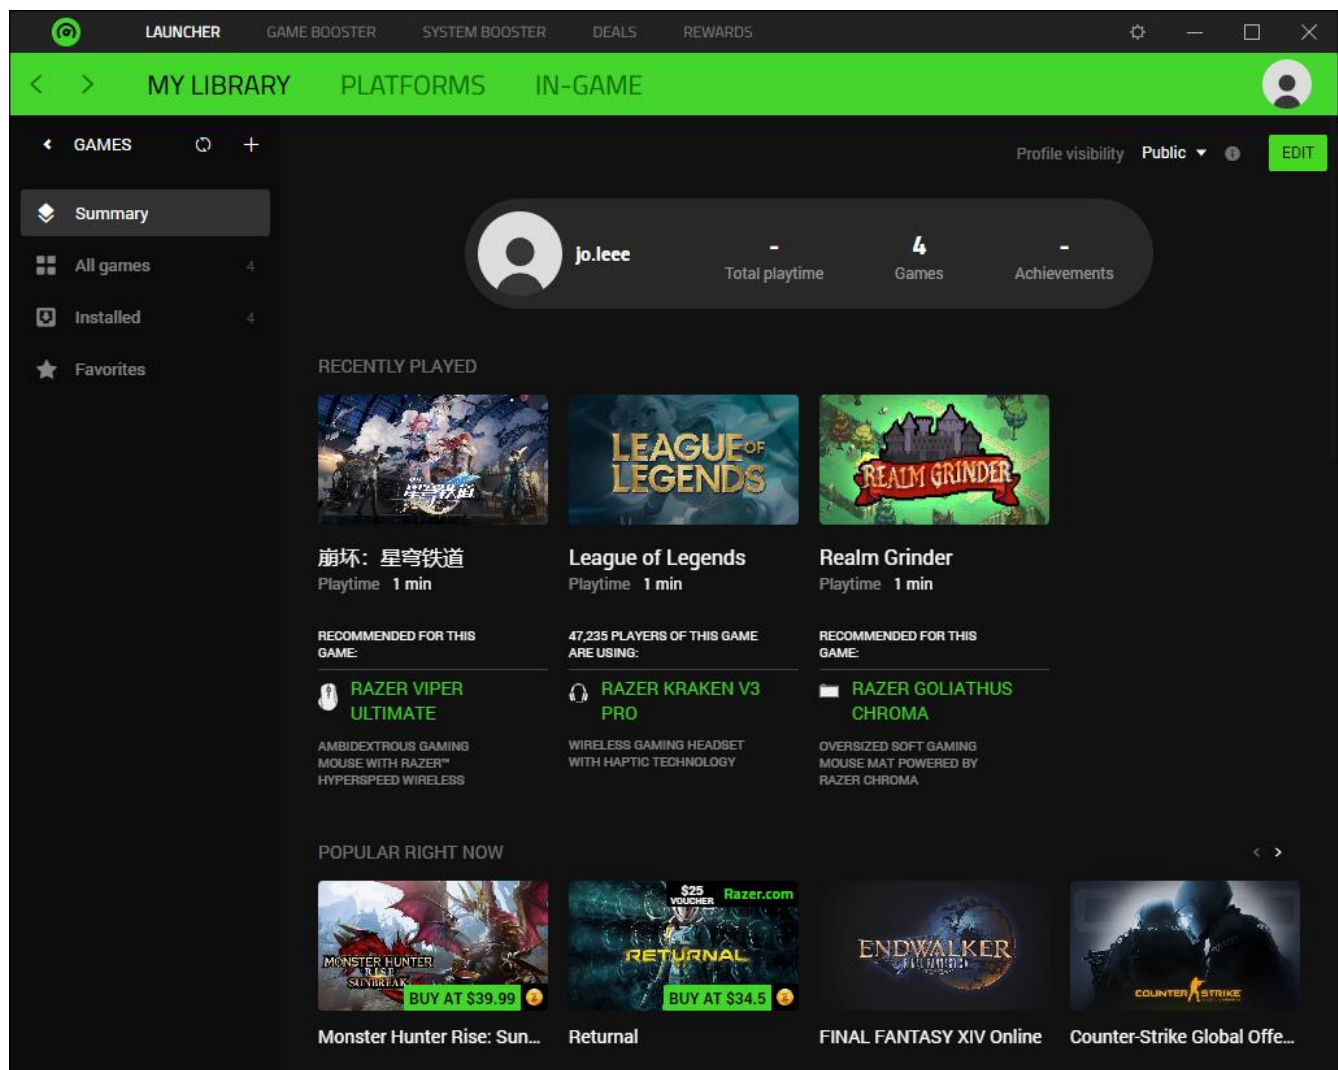

tab to check for software updates, view its user guide, or visit any of Razer's social communities.

4. LAUNCHER

Manage all your games from various platforms in one place.

MY LIBRARY

When Razer Cortex is installed and launched, you'll immediately see the Summary subtab, where you can change your profile's visibility, create a postcard, view your games summary, browse trending games, and more. In addition, Razer Cortex will automatically scan for existing games and display all recognized games under the My Library > Installed subtab.

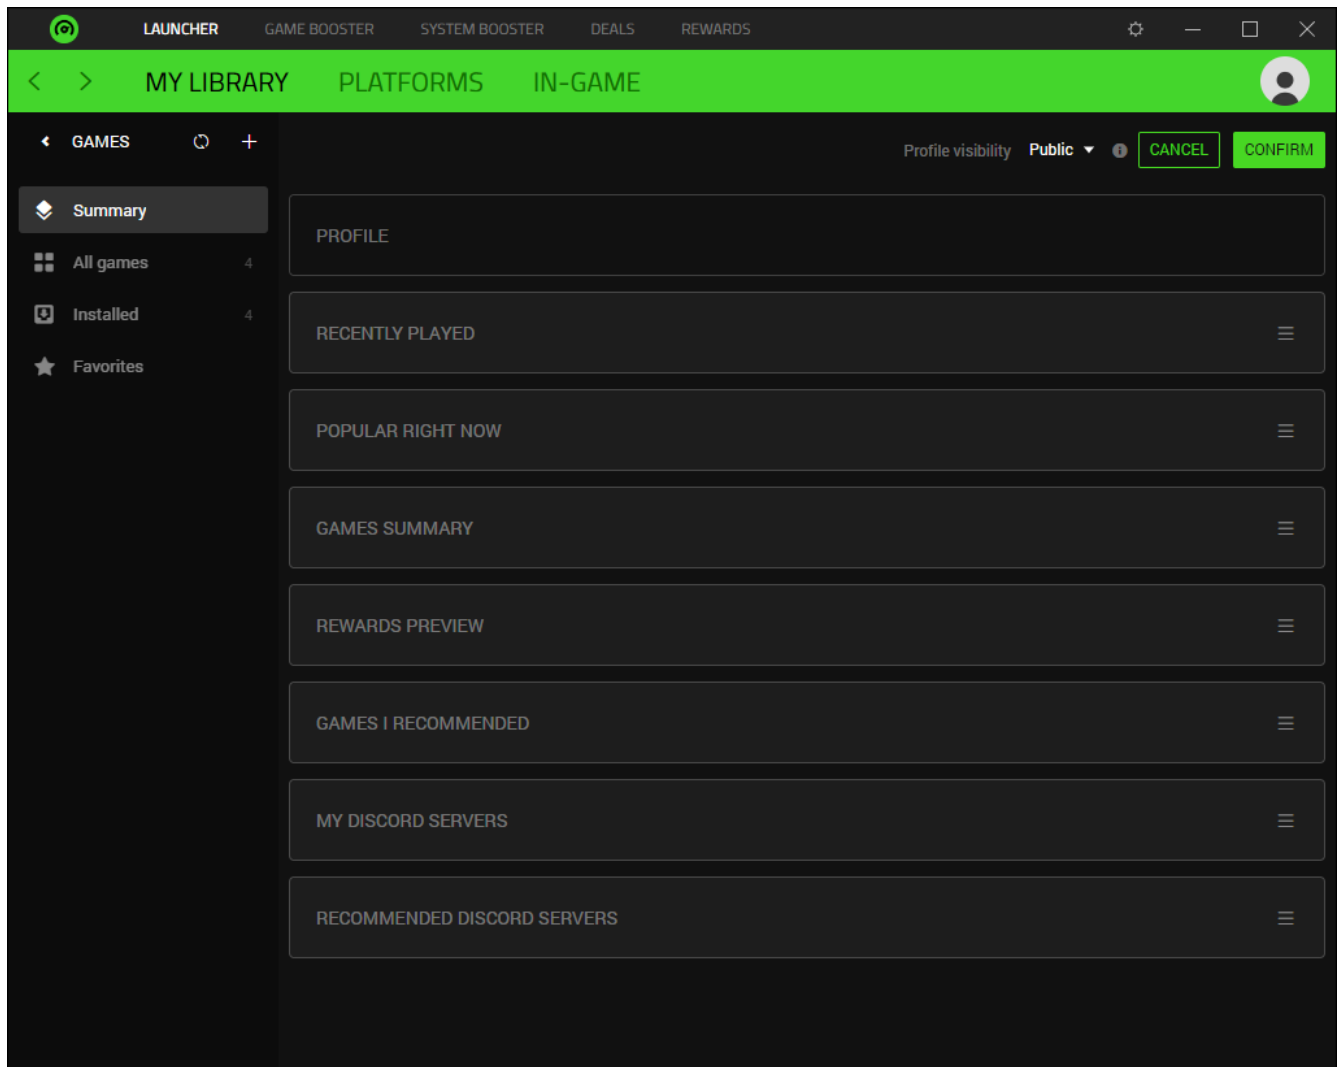

Changing your profile's visibility

You can change your profile's visibility to Public or Private to allow/restrict other people from seeing your summary, playtime, owned games and achievements.

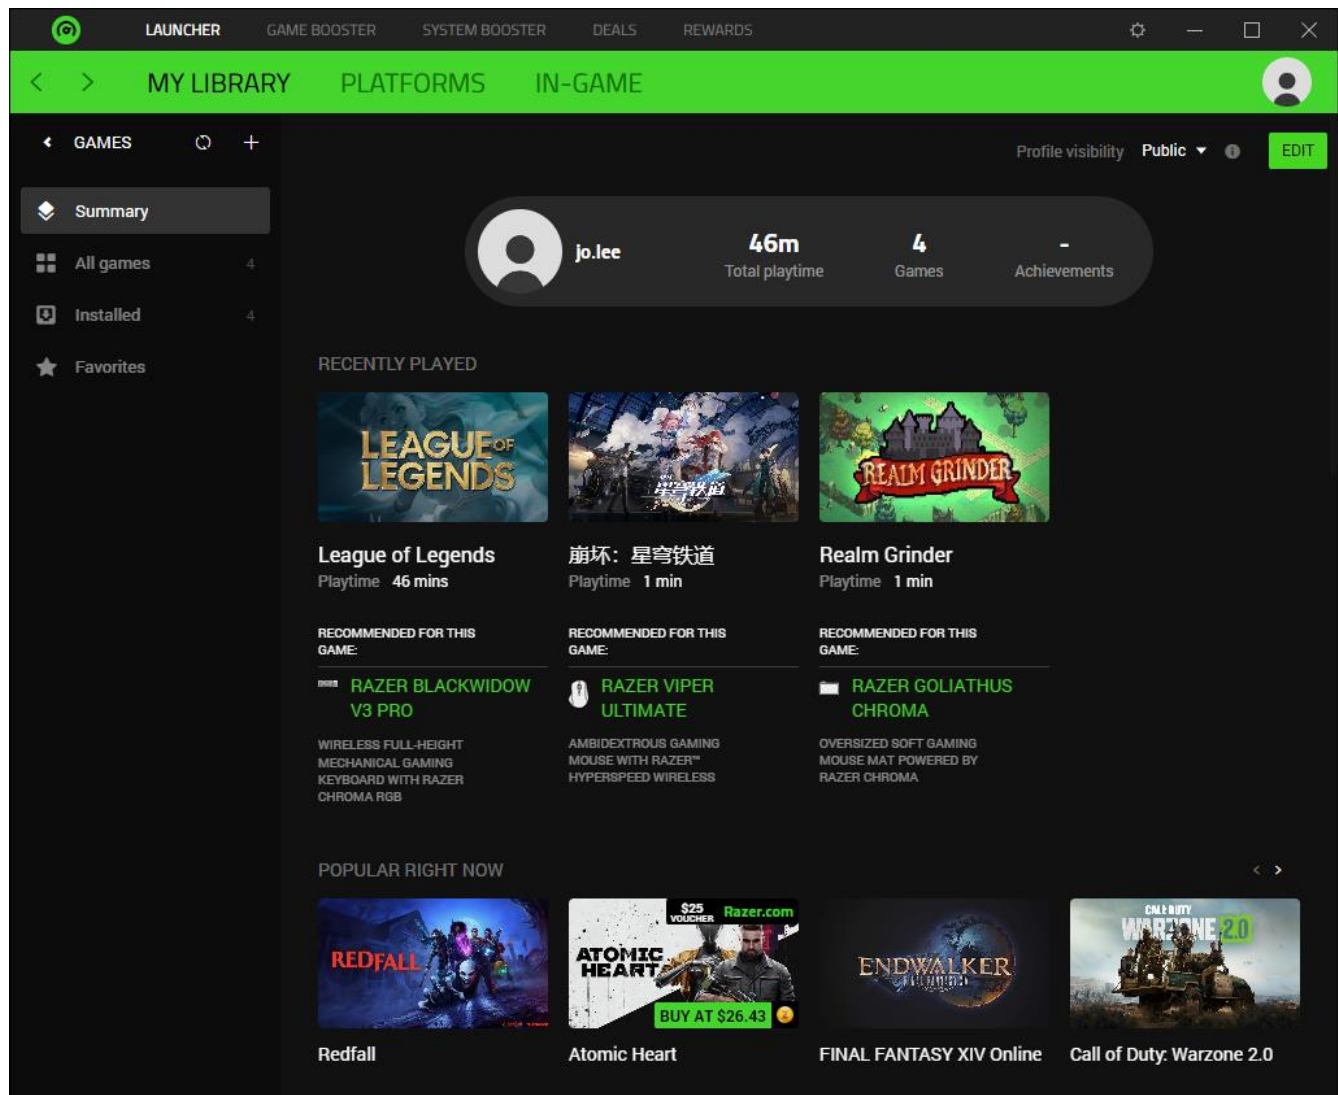

Customizing your account summary

Use the Edit button to reorder what you see on the Summary subtab. Once done, click Confirm to save the preferred changes.

Creating a postcard

Clicking on your Razer ID gameplay summary bar will allow you to customize and create your postcard that displays your total playtime, the number of games in your library, and achievements.

You can set your postcard to either feature your most played game in 90 days, your favorite games, or your wishlist and share it directly on any of the provided social communities, export it as an image to your desktop, or use any of the codes provided.

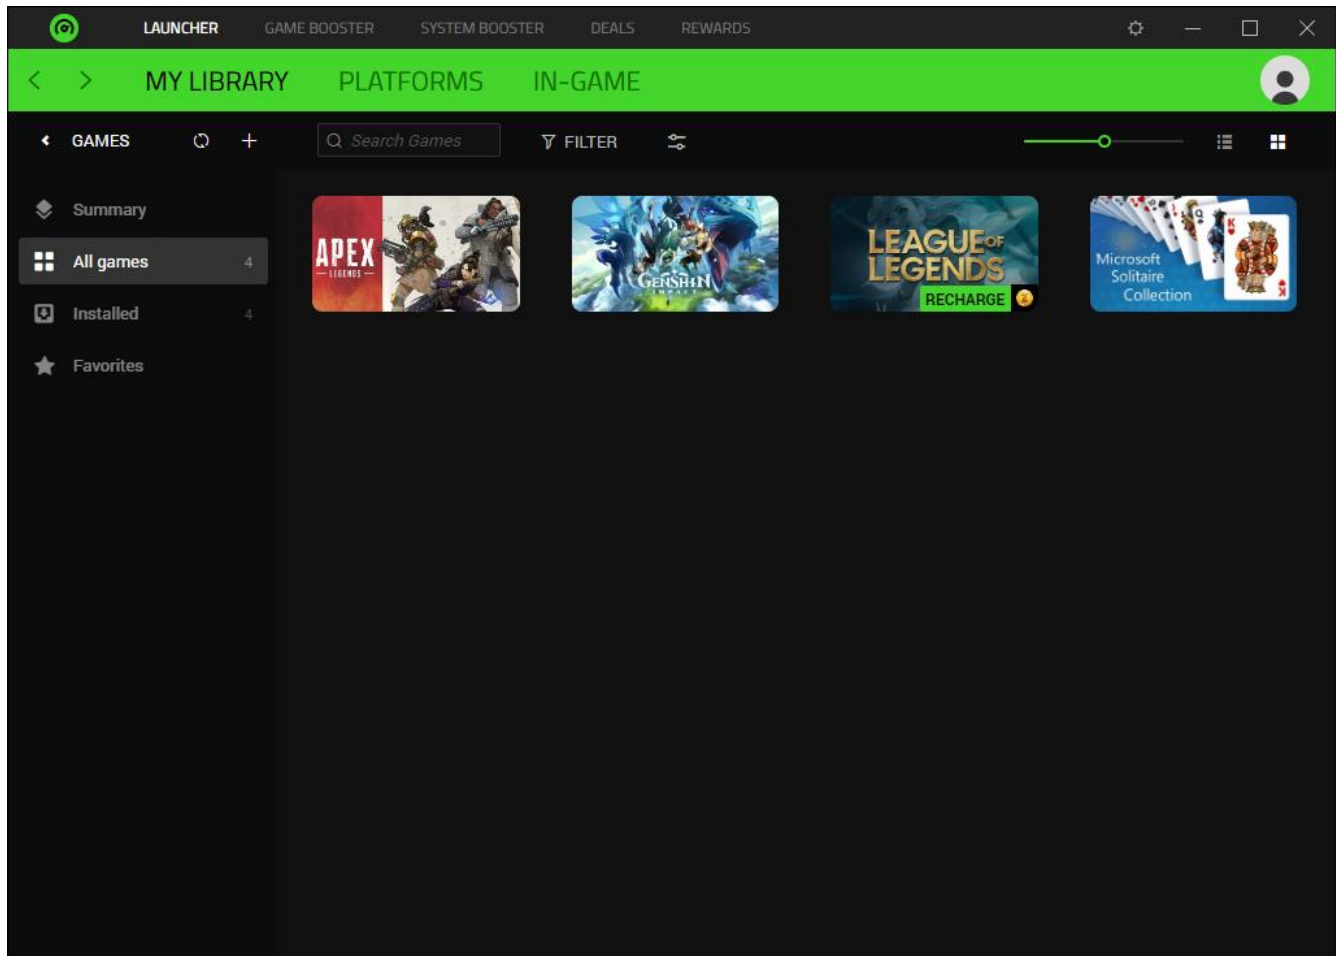

Searching, Filtering, and Sorting games

Under the All games, Installed and Favorites tabs, you can search for any game in your library using the Search Games field, filter or sort games, and search results using the Filter ( FILTER) and Sort () buttons.

 You can adjust the size of all game cover arts using the game icon slider and organize the game list using the grid thumbnail () and list mode () buttons.

Sidebar

Use the sidebar to view your games and gameplay summary, manage your games, see which platforms they're from, and group your favorites for easy accessibility. You can collapse or expand the sidebar by clicking on the Expand (>) and Collapse button (<).

Adding installed games – Automatic System Scan

If you have newly installed games, click the Refresh button (↻) to rescan your system for recognized games and update the games listed in your library.

i *The automatic system scan will only add games recognized by Razer Cortex.*

Adding installed games – Manual Selection

If Razer Cortex cannot add an installed game on My Library, you could manually add it by clicking the Add button (+) > **Add game**.

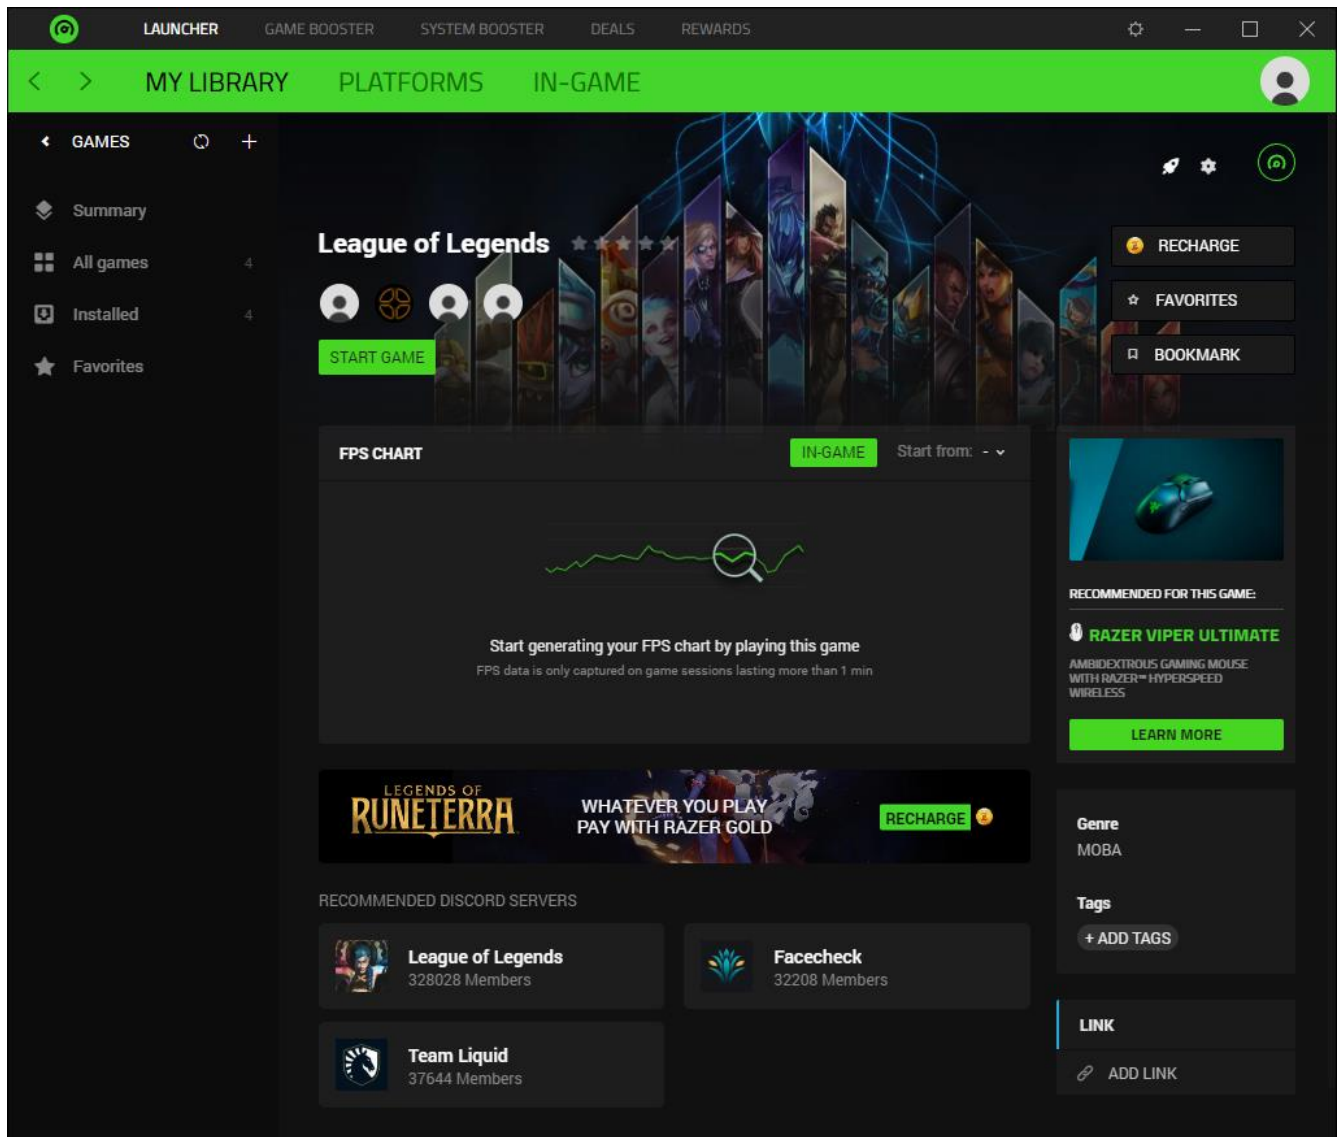

Launching a game

Hover on any game and click on its Play button (▶) to launch your game and automatically boost its performance.

i *Automatic game boosting will only occur if you configure Razer Cortex to boost performance whenever launching a game on GAME BOOSTER > BOOST > Auto-Boost.*

Configuring a game's settings

Clicking directly on a game's cover art will allow you to view in-depth details or recommend it to other users on Deals.

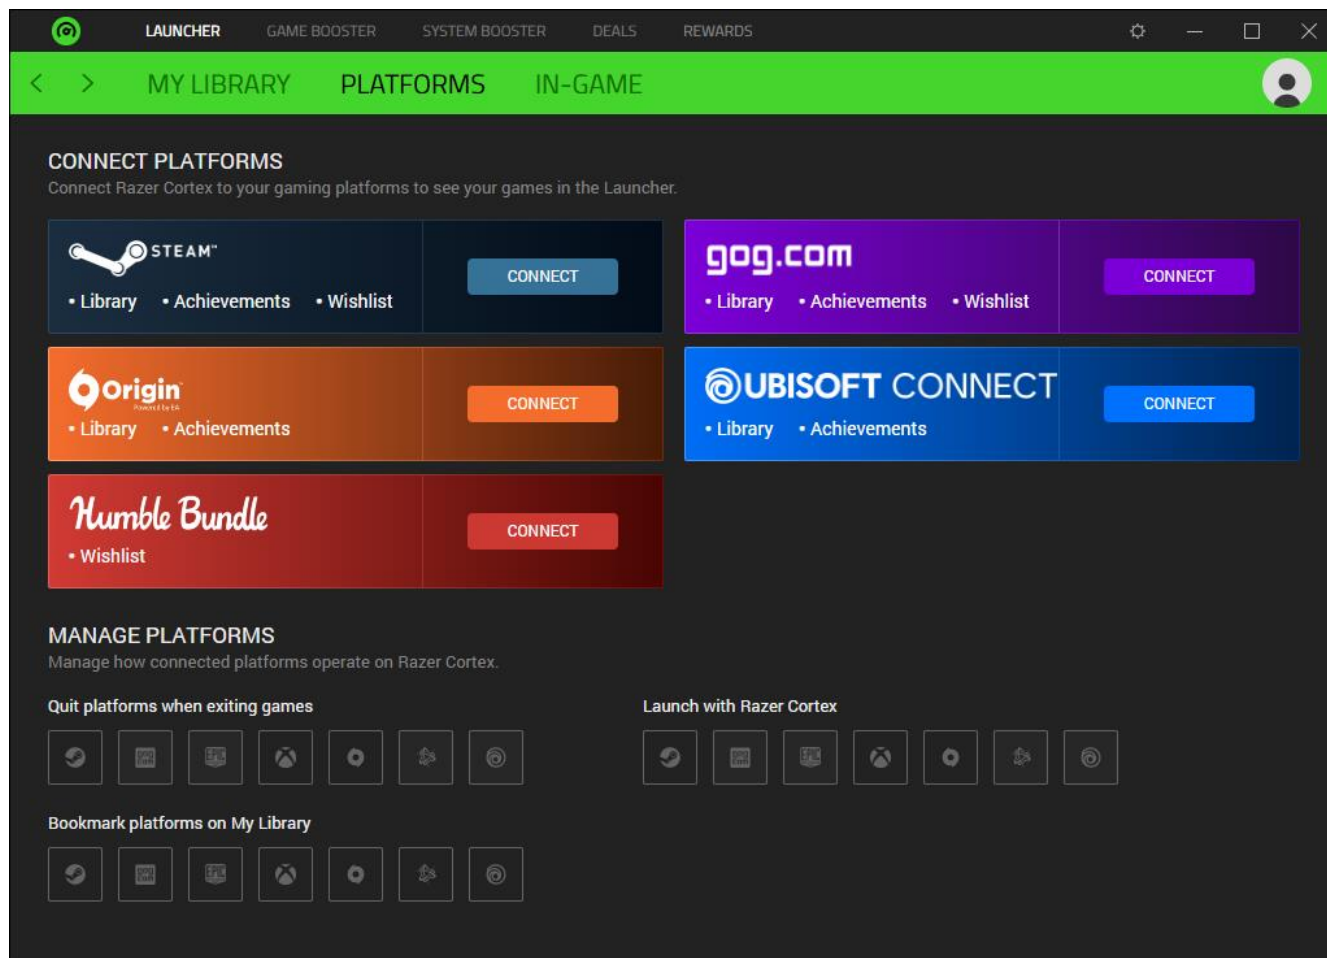

You'd be able to do the following actions from any game's properties window:

- Start a game.
- View a game's properties, such as which platform it's from, its latest generated FPS chart, and genre.
- Recommend a game to other users.
- Go directly to a selected game's Booster Prime page (if supported) on Booster Prime via the Booster Prime button (🚀).

- Edit a game's details, open its installation directory, uninstall (for supported games), or remove it from Razer Cortex using its Settings button (⚙).
- Go to Game Booster > Boost to optimize your PC's performance immediately and/or customize which items will be optimized whenever you Boost your PC. [Learn more about Game Booster](#)
- For supported games, you can click on RECHARGE to reload its corresponding game account using Razer Gold. [Browse Razer Gold-supported games](#)
- Set a game as a Favorite to make it accessible from the Favorites subtab on the sidebar.
- Bookmark a game to make it immediately available as a subtab on the sidebar.
- Add game tags for easy searching and links for related guides and walkthroughs.
- Access recommended Discord servers for the selected game to connect with its community quickly.

PLATFORMS

Connect your gaming platforms to manage your games and sync their wishlists with Razer Cortex.

Connect platforms

Clicking on the corresponding platform's **CONNECT** button allows you to (if applicable) connect or sync Razer Cortex with a platform's library and/or wishlist.

i For Razer Cortex to retrieve your platform's wishlist, ensure your platform's privacy setting is Public (if applicable).

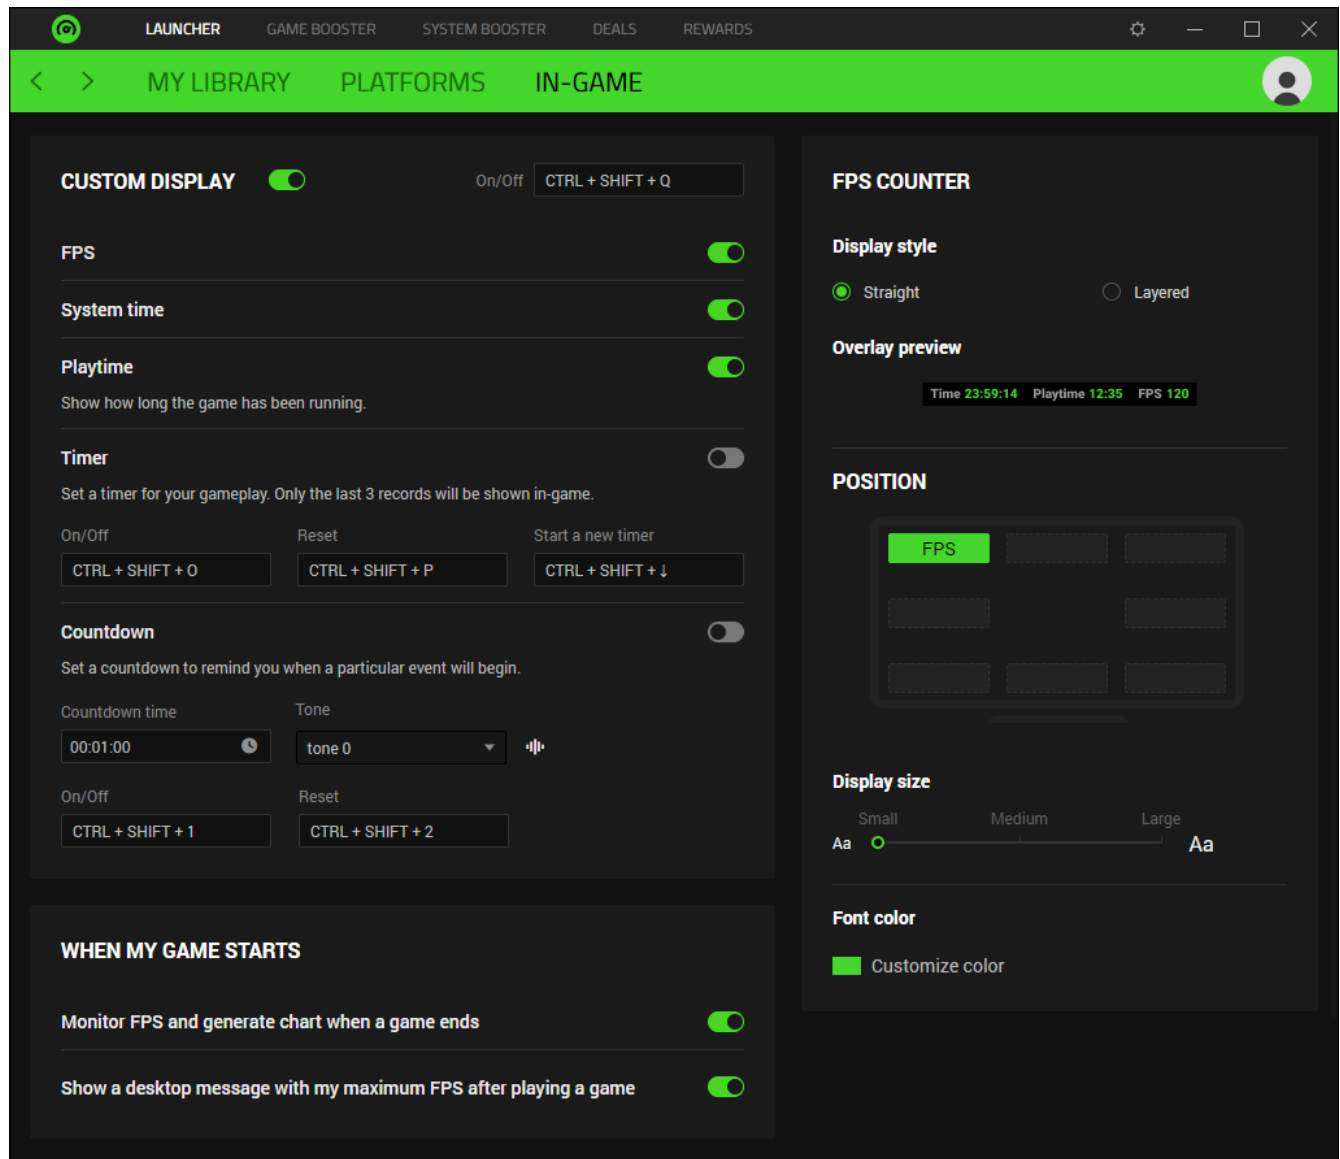

Manage platforms

Set how installed platforms will operate with Razer Cortex.

- **Quit platforms when exiting games.** Closing any game (launched through Razer Cortex) will exit any enabled platform under this setting.
- **Launch with Razer Cortex.** Launching Razer Cortex will also launch any enabled platform under this setting.
- **Bookmark platforms on My Library.** Select which platforms will be shown in the sidebar.

IN-GAME

The In-Game subtab allows you to control, customize, and position the FPS (Frames Per Second) monitoring and overlay feature of Razer Cortex.

Custom Display

Toggle to customize what will be shown on the FPS overlay or disable the feature.

- **FPS.** Show the current FPS count.
- **System time.** Include the current system time.
- **Playtime.** Show how long the game has been running.

- **Timer.** Include a timer on your gameplay and set shortcut keys for enabling/disabling, resetting, and starting a new timer.
- **Countdown.** Set a countdown timer to remind you when a particular event will begin.

When my Game Starts

When launching any game through Razer Cortex, you may:

- Choose to enable the FPS overlay automatically while in-game and generate an FPS chart after each game.

 *The generated FPS chart of your game can only be seen in its dashboard if you've played it for more than 1 minute.*

- Show a desktop message with the maximum FPS reached after a game ends.

FPS Counter

Once enabled, the FPS Counter lets you select where and how the FPS counter is displayed, how big it will be, and what color it will have onscreen.

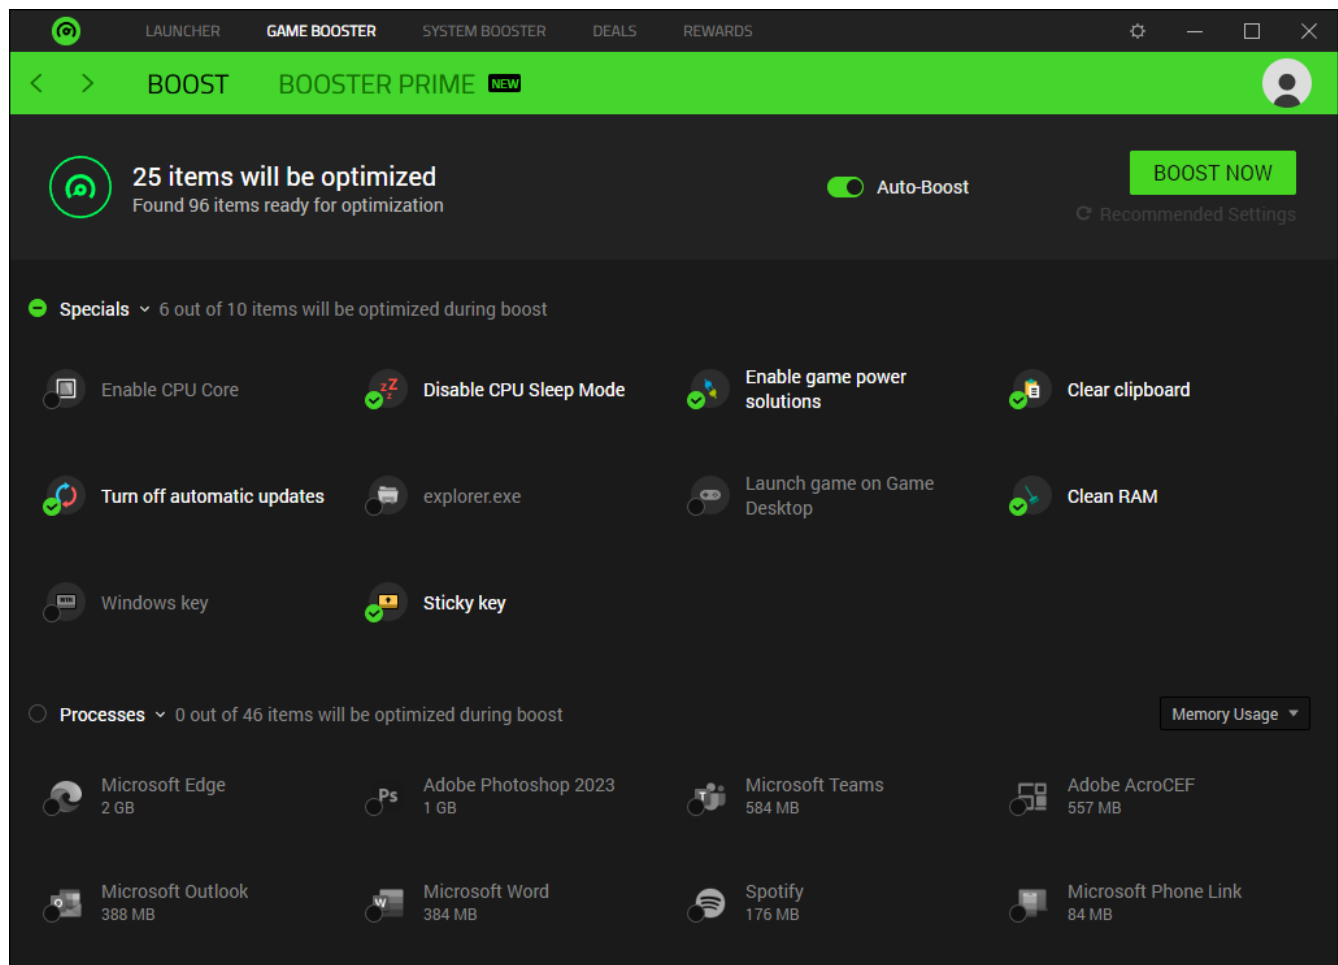

- **Display style.** Change the FPS counter into a straight or layered format. The overlay preview will change as you switch between display styles.
- **Position.** Determine where the FPS counter is displayed.
- **Display size.** Change the font size of the FPS counter.
- **Font color.** Customize the color of the FPS counter.

5. GAME BOOSTER

Use the Game Booster tab to free up valuable resources when you Boost your system or launch a game.

BOOST

The Boost tab lets you control which processes and services can be temporarily suspended to provide more system resources for your game and improve your gaming experience.

Auto-Boost

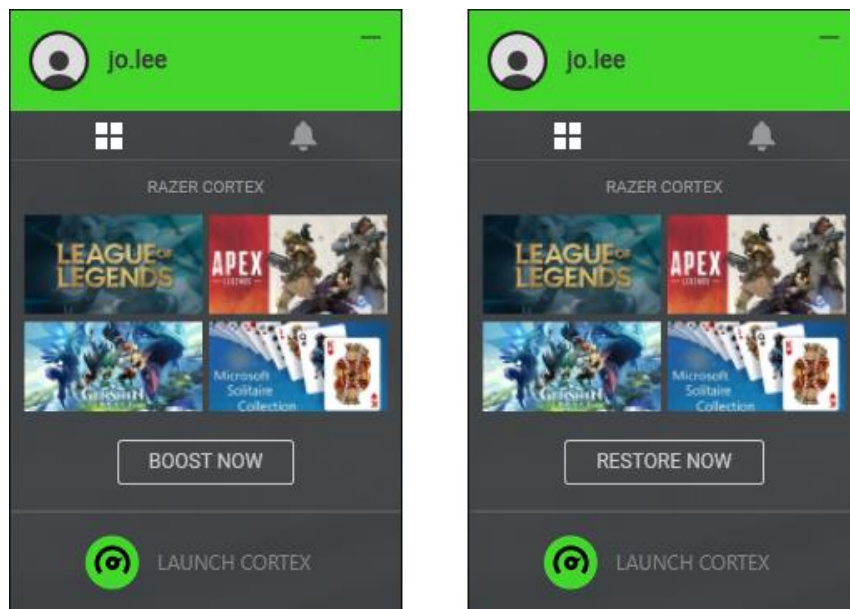

When enabled, Razer Cortex will automatically suspend the selected specials, processes, and services upon launching any game to boost its performance.

Boost Now / Restore Now

Use the BOOST NOW button to optimize your PC's performance for any application using your preferred settings. To restore your PC to its standard settings, click RESTORE NOW.

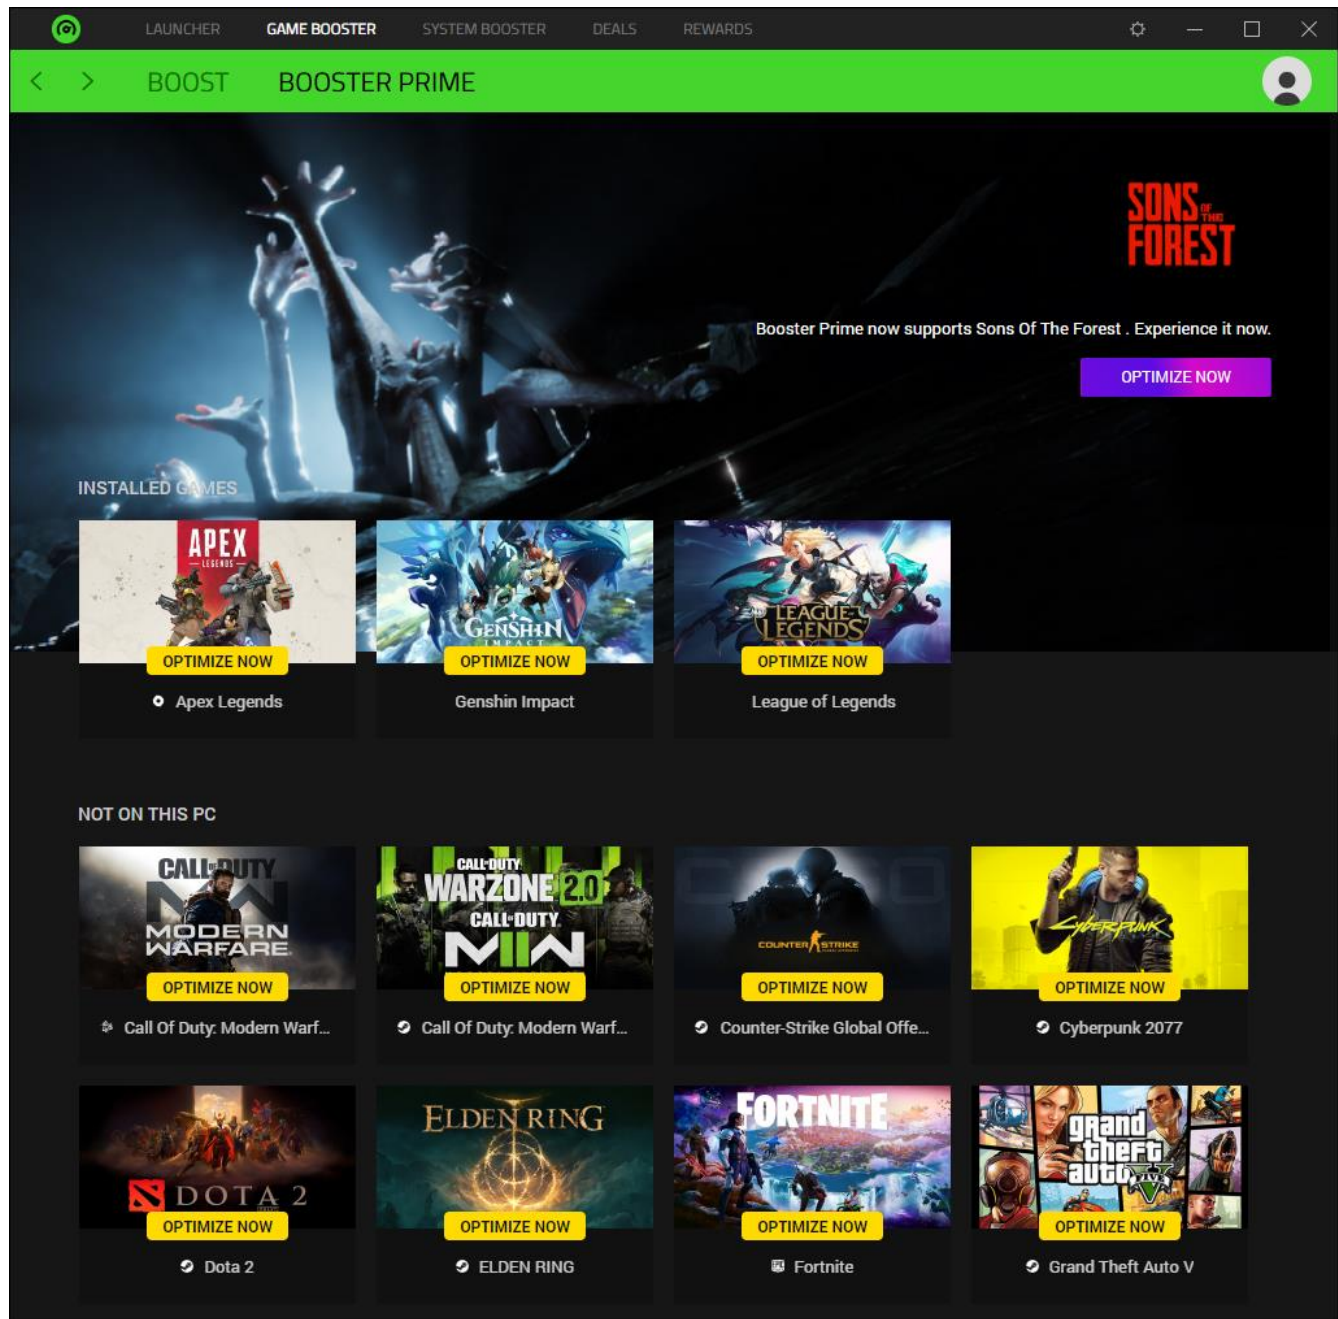

i *WARNING: Suspending Windows services and/or other processes may affect the operation of your system. If unsure which processes and/or services to select, click Recommended Settings to reset all categories to their defaults.*

When Razer Cortex is running, you can also quickly access its Boost Now / Restore Now function from the Razer Central icon () on the system tray.

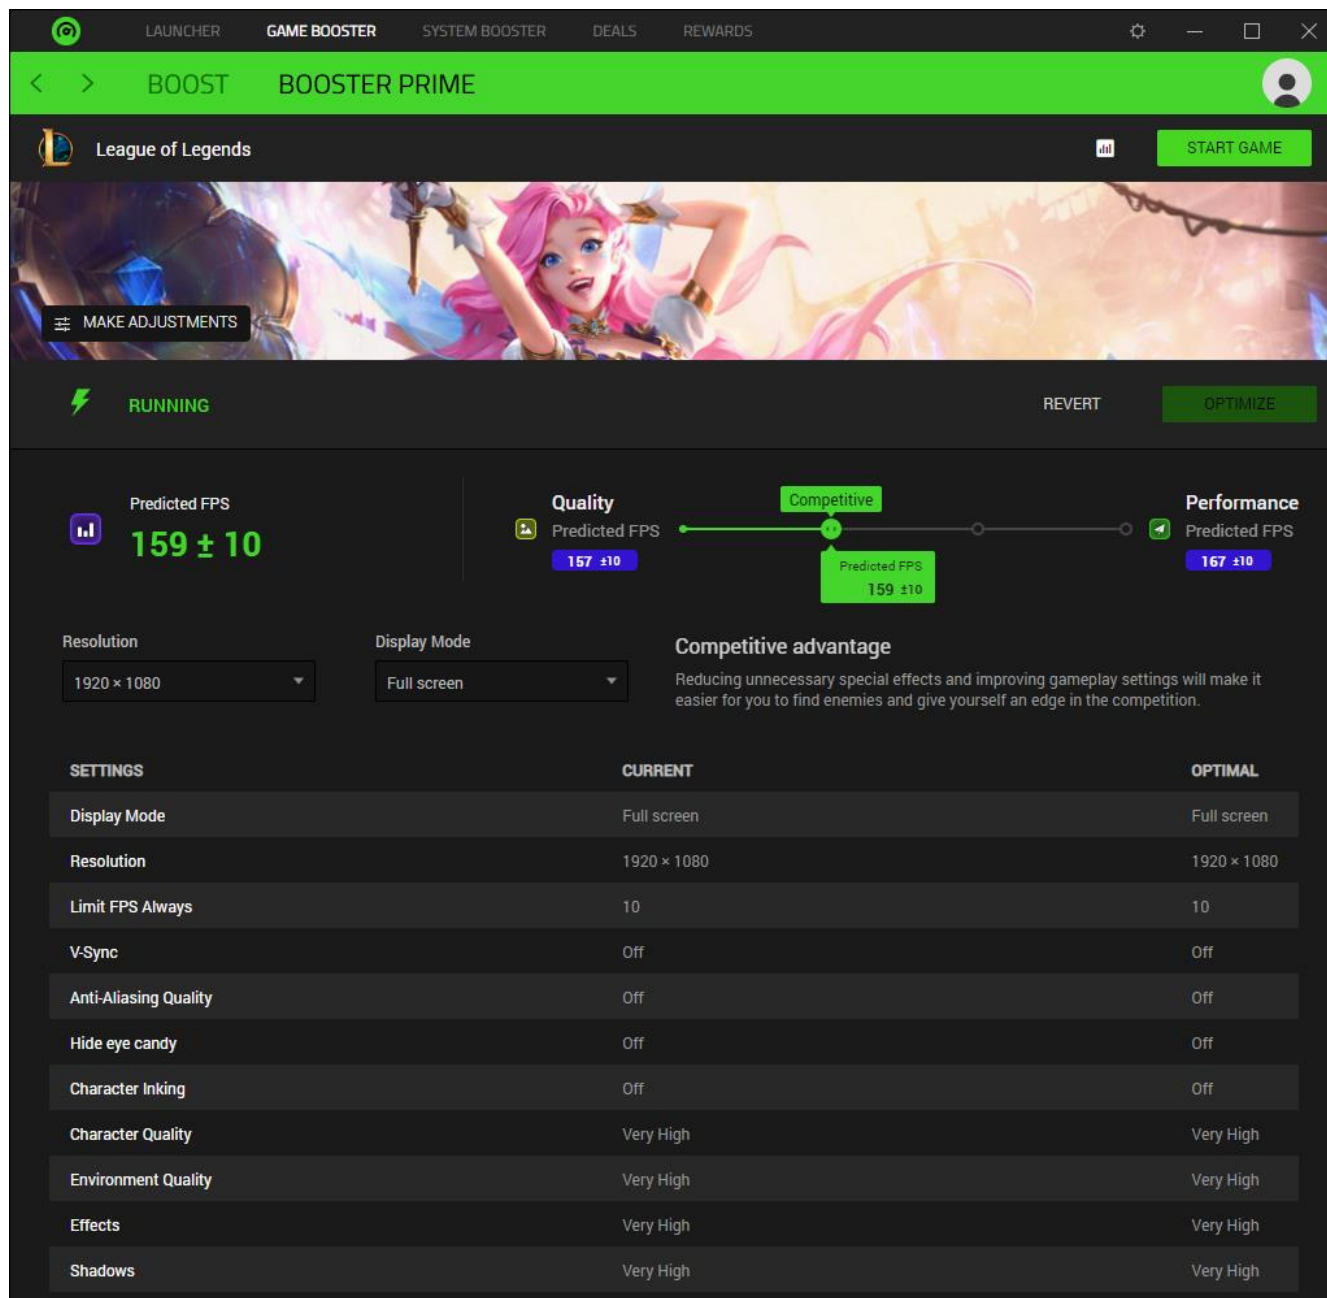

BOOSTER PRIME

The Booster Prime tab lists all the games supported by our advanced machine-learning algorithms, which have pre-defined PC settings for playing top competitive games. Use Booster Prime to optimize installed games or browse other must-try supported games in our arsenal. As the AI constantly learns and caters to each game with different settings, you can let Booster Prime automatically optimize your PC settings or optimize each game as needed.

Clicking on any supported game will allow you to view its details.

From here, you'd be able to view or customize the following:

- **Make Adjustments.** Fine-tune the color settings of the game, such as its hue, brightness, contrast, and digital vibrance.
- **Customize Optimization Priority.** Change the graphic settings of the corresponding game through various presets, which you change using the Quality / Performance slider. To apply your preferred graphic settings, click **Optimize**.

Check the Predicted FPS value and Settings table to see how the selected optimization priority mode will impact your system's performance. These settings automatically take effect when you launch the game through Razer Cortex. You can revert the settings to their default properties by clicking the REVERT button.

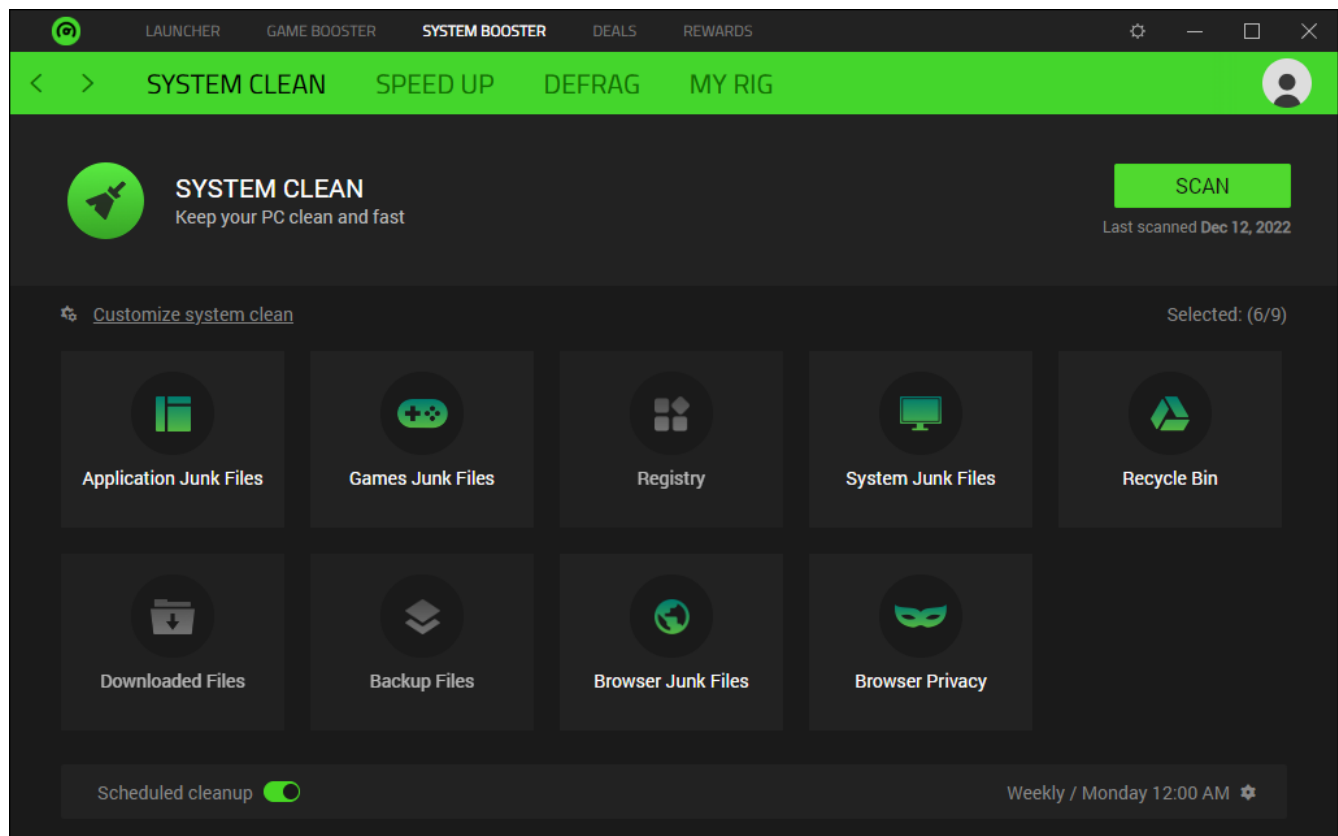

- **Resolution and Display Mode.** Change the game's display resolution and screen mode.

6. SYSTEM BOOSTER

The System Booster tab allows you to perform system tasks such as junk cleaning, boosting hard disk performance to make your system run faster, and game defragmenting. These actions will speed up your PC, allowing it to run games and other functions more smoothly.

SYSTEM CLEAN

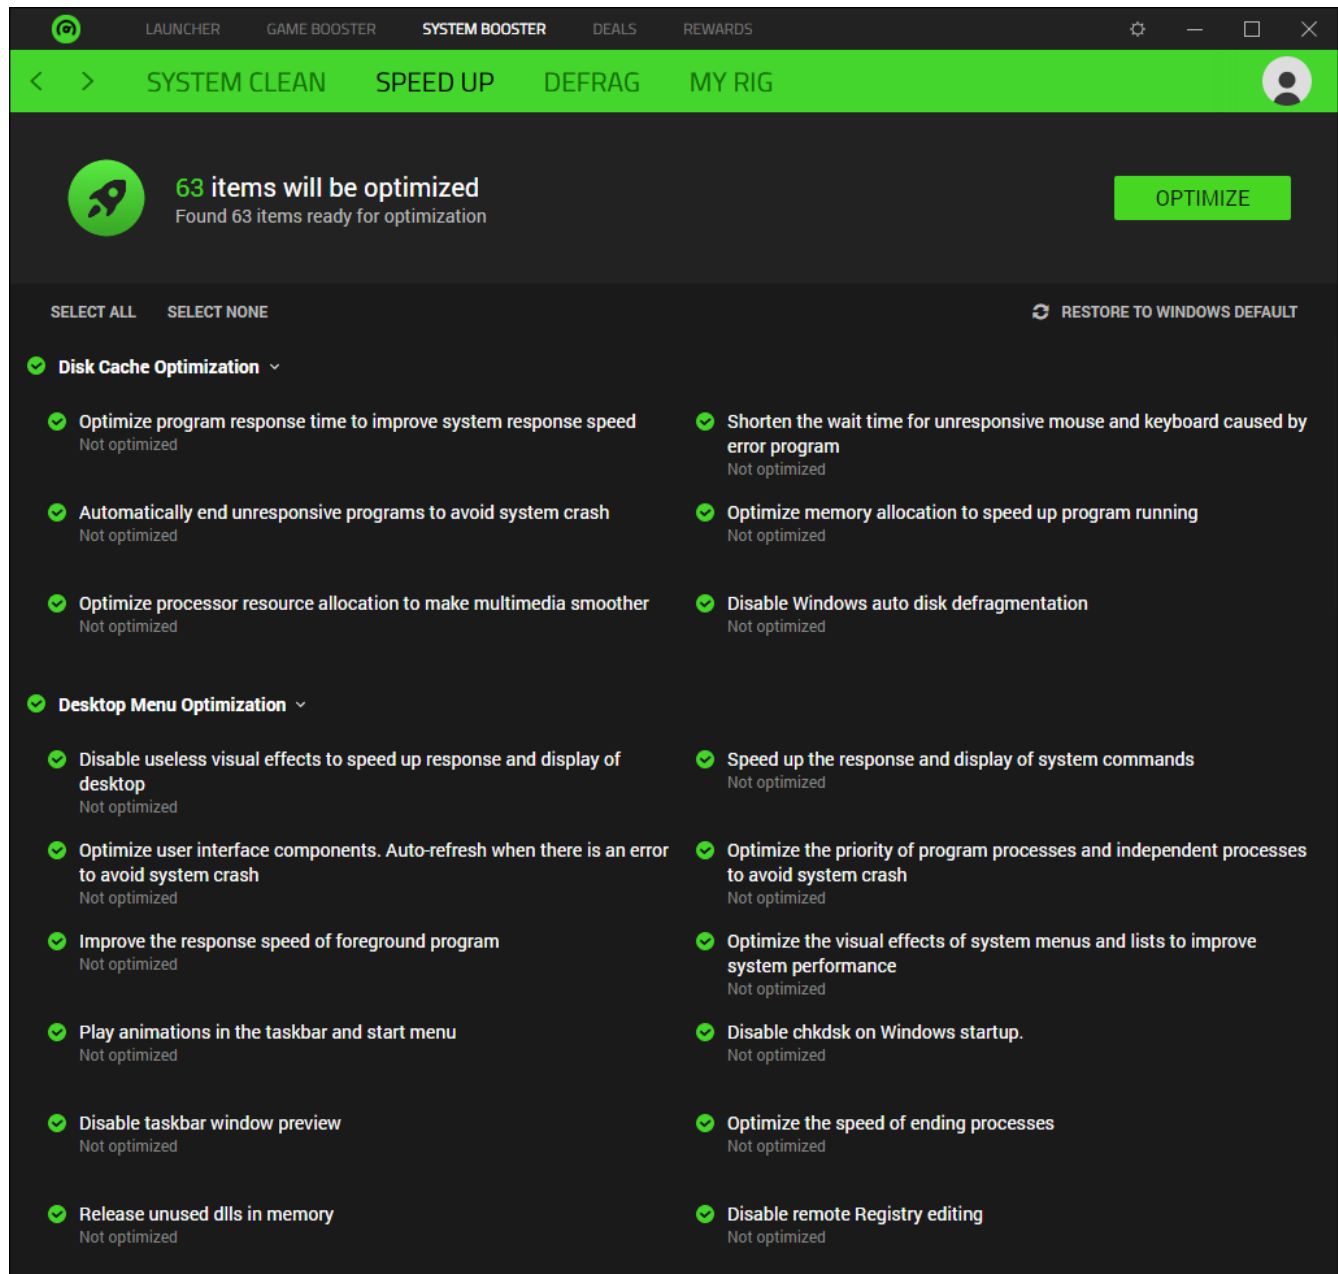

Use System Clean to scan and see how much junk you can clean from your system.

System Clean is set to scan and do weekly cleanups on Mondays at 12 am by default. You can customize when Razer Cortex performs weekly or monthly cleanups or disable it from the System Clean settings (⚙️).

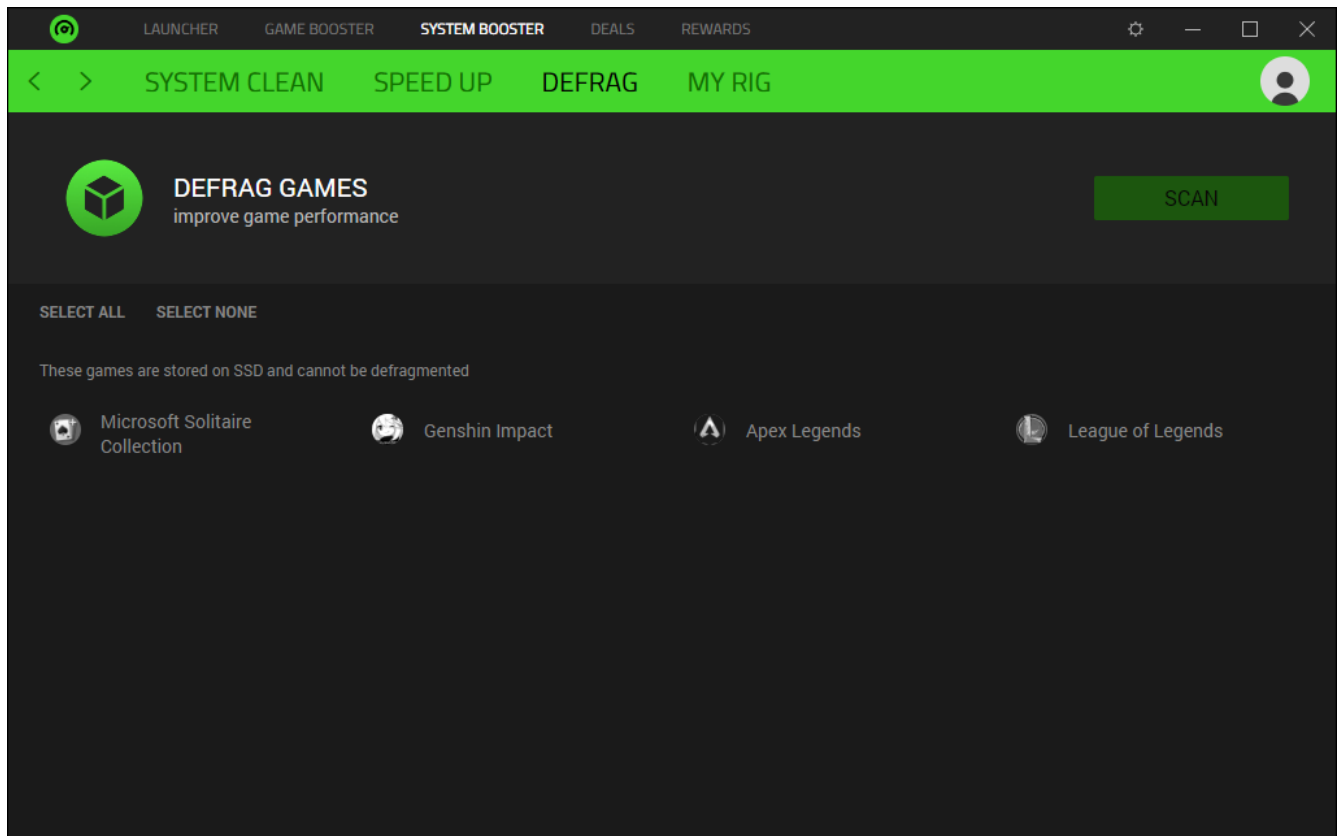

SPEED UP

The Speed Up subtab lets you control which system settings will be optimized to improve overall game performance and ensure a smoother gaming experience.

DEFRAG

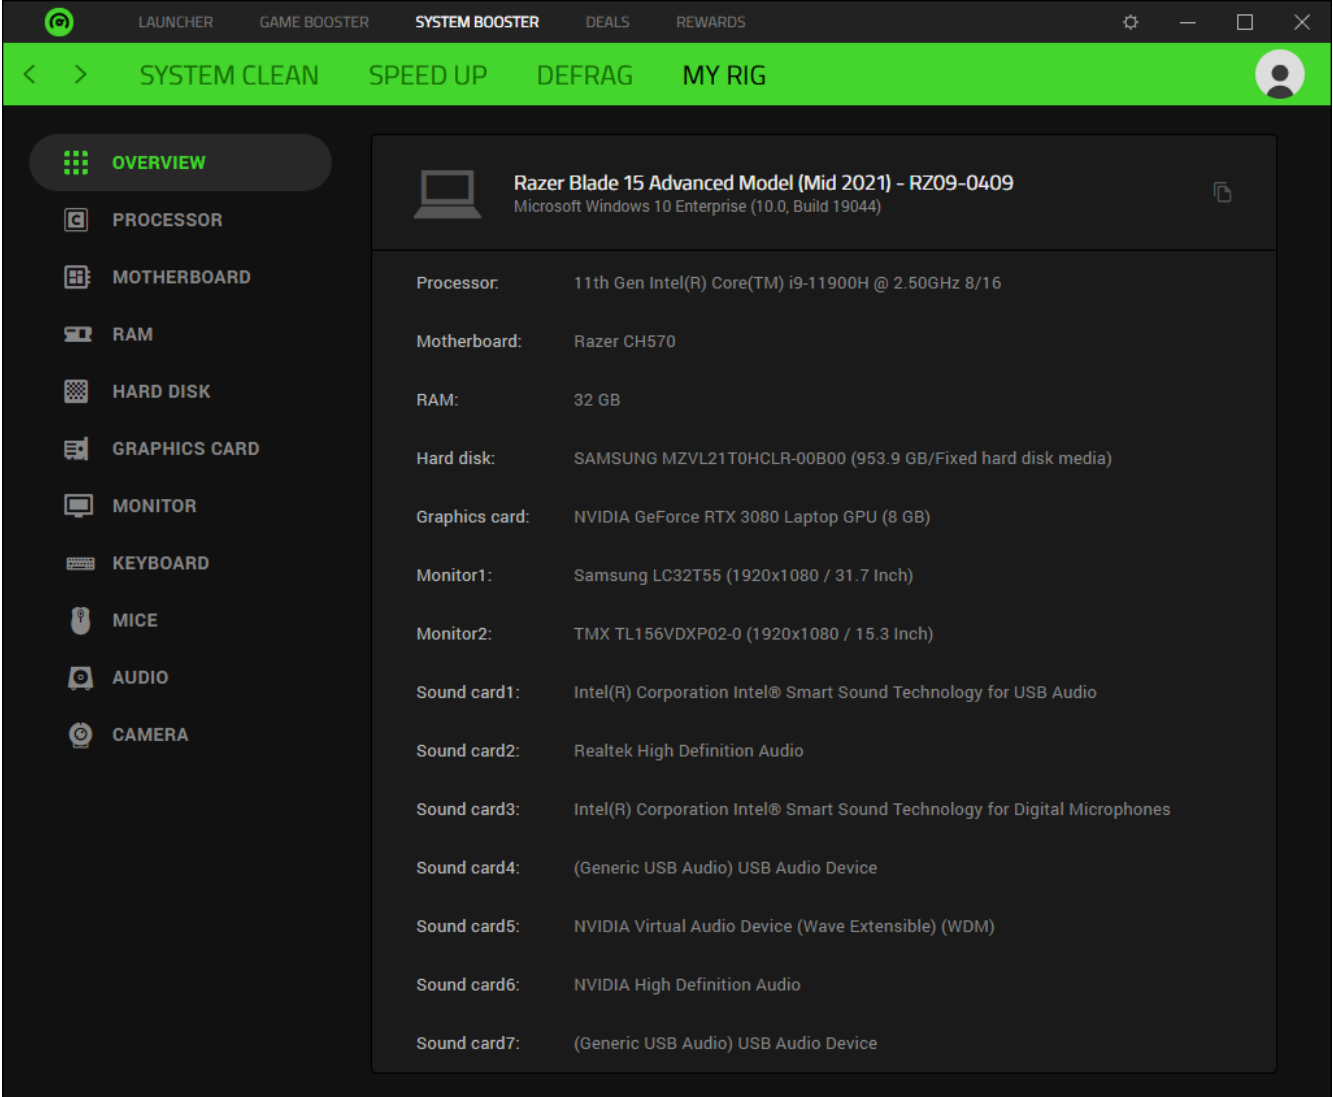

Defragging your games enables your system to defragment your game's files, making your games load and run faster.

i *The defragment function is disabled for games stored on Solid State Drives (SSDs).*

MY RIG

The My Rig subtab scans and provides detailed information about your system's internal components, allowing you to quickly copy details or check whether all drivers are up to date. You may use these details to analyze the operation of your computer and pinpoint errors recently experienced.

The screenshot displays the 'MY RIG' section of a software interface. The top navigation bar includes 'LAUNCHER', 'GAME BOOSTER', 'SYSTEM BOOSTER', 'DEALS', and 'REWARDS'. Below this, a green bar contains 'SYSTEM CLEAN', 'SPEED UP', 'DEFRAG', and 'MY RIG'. A sidebar on the left lists various system components: OVERVIEW, PROCESSOR, MOTHERBOARD, RAM, HARD DISK, GRAPHICS CARD, MONITOR, KEYBOARD, MICE, AUDIO, and CAMERA. The main content area shows the system name 'Razer Blade 15 Advanced Model (Mid 2021) - RZ09-0409' and the operating system 'Microsoft Windows 10 Enterprise (10.0, Build 19044)'. WISHLIST

 You must log in to use this feature.

Stay updated with your most anticipated games and receive notifications whenever your desired game goes on sale. You can filter your wishlist according to genre, distributor, type, and availability; and have it sorted according to wishlist date, discount, price, and name.

Sharing Wishlists

You may **SHARE WISHLIST** if you want to share it with the community of your choice. However, you can only share it once you change its availability to Public using the dropdown list beside the SHARE WISHLIST button.

Adding / Removing Games to Your Wishlist

Add games to your wishlist by going to a game's profile and clicking the **ADD TO WISHLIST** button. If you want to remove a game from your wishlist, select the game from your wishlist and then click the **REMOVE FROM WISHLIST** button.

BUNDLES

Search and browse for all available game bundles. You can sort these bundles according to discount, relevance, and availability; and filter according to game distributors.

The screenshot displays the 'BUNDLES' section of a gaming website. At the top, there is a navigation bar with options like LAUNCHER, GAME BOOSTER, SYSTEM BOOSTER, DEALS, and REWARDS. Below this is a secondary navigation bar with DISCOVERY, GIVEAWAYS, RAZER GOLD, GAMES, WISHLIST, and BUNDLES. The main content area is titled '30 Bundles' and features a search bar, a 'Sort' dropdown set to 'Relevance', and a 'Filters' panel on the right. The filters panel includes a 'Distributors' section with checkboxes for Bunch Keys, Daily Indie Game, Fanatical, Groupees, Humble Store, and Indiegala. The bundle list includes:
