## 1. SAFETY AND MAINTENANCE

### SAFETY GUIDELINES

To achieve maximum safety while using the Razer Travel Case Folio for Portable Keyboards, we suggest that you adopt the following guidelines:

- Do not attempt to modify, puncture, or dismantle any part of the travel case. Doing so will void your warranty.
- Only use the travel case for storing and transporting compatible portable keyboards and accessories.
- Do not overload the travel case. Excessive weight may damage the magnetic closure flap, the stand, or the internal and external surfaces.
- Check that the travel case is fully closed before carrying it to prevent accidental drops or keyboard damage.
- Keep the magnetic closure flap free from debris or metal particles to maintain a secure close.
- Keep the travel case away from extreme heat sources, open flames, or prolonged direct sunlight, as high temperatures may warp the PU leather exterior or weaken adhesives.
- Do not store or use the travel case near flammable objects or surfaces.
- Only use charging cables that fit properly into the travel case's port cutouts. Forcing incompatible connectors may damage the cable, the case, or the keyboard.
- Only unfold and use the stand on flat, stable surfaces.
- Avoid compressing the travel case under heavy items, as this may deform the stand or cause permanent creases in the PU leather.
- Avoid placing the travel case on rough or abrasive surfaces to prevent scratches or scuffs on the PU leather.
- Protect the interior microfiber suede from liquids.
- Avoid applying excessive force when adjusting the stand angle, as this may damage the hinge.
- Do not leave the travel case unattended while charging a keyboard inside.
- Avoid using the travel case in wet, damp, or high-moisture environments to prevent damage to the case and stored keyboard. Allow the travel case to fully air-dry if it becomes wet before storing a keyboard inside.

## MAINTENANCE AND USE

The Razer Travel Case Folio for Portable Keyboards requires minimum maintenance to keep it in optimum condition.

- Clean the exterior with a soft, damp cloth. Do not use soap or harsh cleaning agents.
- Wipe the interior with a dry microfiber cloth.
- Store the travel case in a cool, dry place when not in use.
