This video is a step-by-step process on pairing the Razer Hammerhead True Wireless earbuds to a Windows 10 PC.

The Razer Hammerhead True Wireless connects via Bluetooth. Follow the steps in this video to connect your earbuds to your PC.

Search Bluetooth and other devices. Toggle Bluetooth “On.”

Click “Add Bluetooth or other device.”

Select “Bluetooth”

Make sure the earbuds are in pairing mode. For the first time out of the box, the earbuds will be in pairing mode when the charging case lid is opened.

To pair with a new device, tap and hold both earbuds for four seconds or until you hear the audible “pairing” cue to activate pairing mode.

Keep the earbuds within 1 meter of your PC.

Click on the Razer Hammerhead True Wireless Earbuds to connect.

You will hear an audible cue “Bluetooth Connected” from the earbuds to confirm that they are connected to your device.

That’s it, you’ve successfully paired your Razer Hammerhead True Wireless earbuds to your Windows 10 PC.
