

How to set up Routines for your home lightings in the Gamer Room App

This video is a step-by-step process in setting up routines for your home lightings in the Gamer Room App.

Setting up routines to your home allows you to control devices in your home conveniently based on the schedules you have set through the Gamer Room app.

Let's get started.

Open the Gamer room app.

Choose "Routines" and tap "CREATE A ROUTINE".

Enter a name for the routine in the given field.

Choose the time of the day for the routine to take effect.

Choose your preferred day(s) of the week then tap "Next".

Select which device(s) you want the routine to apply to and tap "Create".

Wait while the routine is being created.

Your newly created routine will now be visible.

If you wish to edit any of the settings on this routine, tap on "Edit".

To disable or turn off the routine, simply set the toggle to the OFF position.

To delete a routine, hold and drag on the routine and tap "Delete".

There you have it. You have now successfully set up a routine to your home.
