This video is a step-by-step process in assembling the Razer Fujin gaming chair.

To start, take out all the components of the chair from the box.

Grab the base "A" and push each caster wheel "E" on the slots of the wheelbase to click in.

Insert the cylinder "D" on the wheelbase and cover it with the cylinder cover.

Unfasten the screws from the seat base using the hex key and attach the armrest.

Fasten the screws to attach the armrest to the seat base.

Fasten the tilt mechanism into the seat base using the screws.

Unfasten the screws from the backrest using the hex key.

Attach the backrest to the seat.

Attach and tighten the wheelbase to the chair.

There you have it. You have now assembled the Razer Fujin gaming chair.
