

<https://youtu.be/C-N9yM0SNpo>

This video is a step-by-step process in assembling the Razer Iskur V2 X gaming chair.

To start, take out all the components of the chair from the box.

Grab the base "C" and push each caster wheel "D" on the slots of the wheelbase to click in.

Insert the cylinder "H" on the wheelbase and cover it with the cylinder cover "G".

Unfasten the screws "K" using the hex key.

Fasten the tilt mechanism "F" into the seatbase using the screws "K".

Attach and tighten the wheelbase to the chair.

Remove the plastic screw caps "J" using a penknife, unfasten screws "L" and remove the cover "E".

Unfasten the screws "K" from the backrest using the hex key.

Attach the backrest to the seat.

Fasten the screws "K" on the support brackets using the hex key. Repeat for both sides.

Cover the screws "K" with cover "E", fasten with screw "L", and cover with screw caps "J".

There you have it. You have now assembled the Razer Iskur V2 X gaming chair.
