

This video is a step-by-step process on how to pair the Razer HyperPolling Wireless Dongle and Razer Mouse Dock Pro with your Razer mouse.

Follow the link in the description to see if your Razer mouse is listed among the compatible devices.

Let's get started.

Plug the Razer HyperPolling Wireless Dongle into the USB port of your PC.

Open Razer Synapse and select the Razer HyperPolling Wireless Dongle from the list of devices.

On the CUSTOMIZE page, click "Open Pairing Utility".

Connect a compatible device to the Razer HyperPolling Wireless Dongle.

Click "View Compatible Devices" to see the list of compatible Razer devices.

Set your compatible Razer mouse to 2.4 GHz mode to pair with the Razer HyperPolling Wireless Dongle.

Ensure the Razer mouse is not connected via USB and remove its original dongle if it is connected to the system.

Keep the Razer mouse in close proximity.

Then, press and hold any key on the Razer mouse to keep it discoverable.

Click "Add". Razer Synapse will start scanning for your Razer mouse.

You have now successfully paired your Razer mouse with the Razer HyperPolling Wireless Dongle.

To unpair the Razer HyperPolling Wireless Dongle from your device, go to the CUSTOMIZE page of Razer Synapse and click "UNPAIR".

Click "UNPAIR" on the PAIRING UTILITY page.

Click "CONFIRM".

Your device is now unpaired from the Razer HyperPolling Wireless Dongle.

If you want to pair your Razer device with the Razer Mouse Dock Pro, follow these steps.

Connect the Razer Mouse Dock Pro to your PC and open Razer Synapse.

Select the Razer Mouse Dock Pro from the list of devices.

On the CUSTOMIZE page, click "Open Pairing Utility".

Set the compatible Razer device to 2.4 GHz mode to pair with the Razer Mouse Dock Pro.

Ensure your Razer device is not connected via USB and remove its original dongle if it is connected to the system.

Keep your Razer device in close proximity.

Then, press and hold any key on your Razer device to keep it discoverable.

Click “Add”. Razer Synapse will start scanning for your Razer device.

You have now successfully paired your Razer device with the Razer Mouse Dock Pro.

To unpair the Razer Mouse Dock Pro from your device, go to the CUSTOMIZE page of Razer Synapse and click “UNPAIR”.

Click “UNPAIR” on the PAIRING UTILITY page.

Click “CONFIRM”.

Your Razer device is now unpaired from the Razer Mouse Dock Pro.

There you have it. You can now pair and unpair your Razer HyperPolling Wireless Dongle and Razer Mouse Dock Pro with your compatible Razer device.
