

This video is a step-by-step process on how to switch connection modes using the SmartSwitch button on your Razer headset.

The SmartSwitch button on your Razer headset allows you to cycle through the following options:

Equalizer Presets

2.4 GHz Mode

Bluetooth Mode, and

Simultaneous Audio Mode

Let's start.

Locate the SmartSwitch button on your Razer headset.

Press the SmartSwitch button once to cycle the default Equalizer presets.

Press the SmartSwitch button twice to cycle through HyperSpeed, Bluetooth, or Simultaneous Audio modes.

There you have it!

You can now switch your Razer headset connection modes using SmartSwitch.
