

This video is a step-by-step process on how to switch the connectivity mode on a Razer keyboard.

There are multiple ways of switching the connectivity mode on Razer keyboards.

For keyboards with the Razer HyperSpeed wireless mode button:

Toggle the mode switch to "WIRELESS".

Connect the Razer HyperSpeed Wireless USB dongle to your computer.

Press the Razer HyperSpeed Wireless mode button.

The mode button will blink while it is connecting, and will turn to solid white once connected.

For keyboards with the Razer HyperSpeed mode key:

Connect the Razer HyperSpeed Wireless USB dongle to your computer.

Toggle the mode switch to "WIRELESS".

Press and hold the "fn" key and the Razer HyperSpeed Wireless key.

The mode key will blink while it is connecting, and will turn to solid white once connected.

For Razer keyboards with the Bluetooth mode button:

Toggle the mode switch to "WIRELESS".

Press the Bluetooth mode button. Repeat this until the desired Bluetooth profile is active.

Enable Bluetooth on your device and select your Razer keyboard from the list of devices found.

Pair and connect your Razer keyboard with your computer.

The mode button will blink while it is connecting, and will turn solid once connected.

For Razer keyboards with the Bluetooth profile keys:

Toggle the mode switch to "WIRELESS".

Press and hold the function key (fn) and the desired profile key to activate. The selected profile key will blink while on pairing state.

Enable Bluetooth on your device and select your Razer keyboard from the list of devices found.

Pair and connect your Razer keyboard with your computer. The selected profile will have a solid blue light once it is paired.

For Razer keyboards with the 2.4/BT switch:

Set the mode switch to BT.

Hold down the “fn” key and number 1, 2, or 3, for 5 seconds until its corresponding LED indicator blinks.

Enable Bluetooth on your device and select your Razer keyboard from the list of devices found. Your device will pair with your keyboard and the connection will be registered on the active profile.

Congratulations! You are now able to switch between connectivity modes on your Razer keyboard.
